P.O. Box 550  
Richland, Washington 99352

04-PRO-0062

DEC 1 2003

Mr. R. G. Gallagher, President  
and Chief Executive Officer  
Fluor Hanford, Inc.  
Richland, Washington 99352

Dear Mr. Gallagher:

CONTRACT NO. DE-AC06-96RL13200 – CONTRACT MODIFICATION M185, UPDATED  
CONTRACT SECTION C, STATEMENT OF WORK

Enclosed for your files is a fully executed signed original of Contract Modification M185.

This modification incorporates a replacement Statement of Work which makes minor changes, corrections to the list of buildings and waste sites, and correction of typographical errors. If you have any questions, please contact me, or your staff may contact Alan Hopko, Procurement Division, on (509) 376-2031.

Sincerely,

A handwritten signature in black ink, appearing to read "Keith A. Klein", is written over a horizontal line.

Keith A. Klein  
Manager

PRO:AEH

Enclosure

cc w/o encl:  
M. S. Strickland, FHI

<b>AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT</b>		1. CONTRACT ID CODE	PAGE 1 OF 1 PAGES
2. AMENDMENT/MODIFICATION NO. M185	3. EFFECTIVE DATE See Block 16C	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO. (If applicable)
6. ISSUED BY U.S. Department of Energy Richland Operations Office 825 Jadwin Avenue, MSIN A7-80 Richland, WA 99352	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
8. NAME AND ADDRESS OF CONTRACTOR (No. Street, county, State and ZIP Code) Fluor Hanford, Inc. 2420 Stevens Center PO Box 1000 Richland, WA 99352		(✓) 9A. AMENDMENT OF SOLICITATION NO.	
		9B. DATED (SEE ITEM 11)	
		10A. MODIFICATION OF CONTRACT/ORDER NO. DE-AC06-96RL13200	
		10B. DATED (SEE ITEM 13) 08/06/96	
CODE	FACILITY CODE		

**11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS**

☐ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods:

(a) By completing Items 8 and 15, and returning one (1) copy of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATA SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and data specified.

**12. ACCOUNTING AND APPROPRIATION DATA (If required)**

N/A \$0.00

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS, IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.**

(✓)	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
X	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF: Mutual Agreement
	D. OTHER Specify type of modification and authority

**E. IMPORTANT: Contractor** ☐ is not, ☒ is required to sign this document and return 2 copies to the issuing office.

**14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)**

This modification incorporates replacement contract Section C, Statement of Work, with the Statement of Work, attached.

<p>Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.</p>			
<p>15A. NAME AND TITLE OF SIGNER (Type or print) David B. Van Leuven, President and Chief Executive Officer</p>		<p>16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) Keith A. Klein Manager</p>	
<p>15B. CONTRACTOR/OFFEROR <i>David B. Van Leuven</i> (Signature of person authorized to sign)</p>	<p>15C. DATE SIGNED 10/20/03</p>	<p>16B. UNITED STATES OF AMERICA BY <i>Keith A. Klein</i> (Signature of Contracting Officer)</p>	<p>16C. DATE SIGNED DEC 1 2003</p>

## C.1 Project Hanford Management Contract Overview

The Hanford Site has two major missions: (1) cleanup, and (2) science and technology. There are two major Office of Environmental Management (EM) programs associated with cleanup. One is the River Protection Project (RPP), which entails cleanup of Hanford Site Tank Waste, and is managed by the Department of Energy (DOE) Office of River Protection (ORP). The other is Project Hanford, which entails cleanup of the remainder of the Hanford Site, and is managed by the DOE Richland Operations Office (RL), which also manages the science and technology mission. This contract pertains to the cleanup activities associated with Project Hanford. This work shall be accomplished in a manner that achieves high levels of quality; protects the environment, the safety and health of workers and the public; and complies with requirements.

The DOE and Contractor recognize that under terms of the Contract clauses titled "Withdrawal of Work" and "Optional Services" the DOE may exercise its rights to modify this Statement of Work. The DOE and Contractor agree to negotiate a reasonable transition period for each change to minimize the impact on existing work being performed.

The following sections provide an overview of the activities considered part of the Contractor scope of work. Details are contained in Sections C.2 through C.6 and are presented in a series of tables. There are three general types of tables as explained below:

The Scope Table contains specific scope descriptions, requirements, deliverables and the government furnished services and items that are necessary to accomplish the scope.

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Life cycle work scope that needs to be accomplished in support of the DOE-RL Project Hanford mission. Completion of the life cycle work scope may extend beyond the Contract Period.	Contractor's key or unique requirements for work associated with the scope, including acceptance criteria where available. Requirements that extend beyond the Contract Period are identified as "Post Contract Period". Requirement source documents are identified in Section J, Appendix C. The only sources identified in these tables are those that no longer apply after the scope is completed.	Contractor endpoints, work scope completions, products, reports, or commitments that will be delivered prior to end of contract. Includes enforceable TPA milestones that have been assigned to the Contractor.	Government furnished services and items that the Contractor needs to complete assigned work scope and deliverables.

The End State Definition table lists the buildings or waste sites assigned to the Contractor for the work scope defined above.

End State Definition			
Building/Waste Site Number	Building/Waste Site Description	Contract Period Scope	Post-Contract Period Scope
Building/Waste Site number as contained in the Hanford Site Technical Database.	Building/Waste Site description as contained in the Hanford Site Technical Database.	End point condition of the buildings/waste sites upon completion of the Contract period	End state condition of the buildings/waste sites associated with the life cycle work scope

The Waste Site Closure table lists any waste sites that will be remediated and closed out as part of the building cleanup activities.

Waste Site Closures		
Site Number	Site Description	Associated Building Number
Waste site number as contained in the Hanford Site Technical Database.	Waste site description as contained in the Hanford Site Technical Database.	When the cleanup work is completed on this building, the waste site will have been remediated. The closeout verification package will be submitted to the lead regulatory agency for approval and acceptance.

### C.1.1 Hanford Site Cleanup Overview

The Hanford Site encompasses approximately 560 square miles and is divided into a number of areas. The 100 Area served as the irradiation area where fuel rods were placed in reactors and irradiated by nuclear fission reactions. The 200 Area served as the chemical processing area where plutonium and uranium were separated from the residual activation and fission products using liquid chemical processes, and the 300 Area served as the fabrication area where uranium metal billets were fabricated into jacketed fuel rods suitable for loading into nuclear reactors. The 600 Area includes portions of the Hanford Site not included in the 100, 200, or 300 Area and served primarily as transportation corridors and buffer zones between the fabrication, irradiation, and chemical processing areas. Other designated areas of the Hanford Site include the 400 Area (Fast Flux Test Facility), 700 and 8000 Areas (RL and contractor offices in Richland, and the 1100 Area (equipment maintenance).

The cleanup activities considered part of this contract are comprised of the 100, 200, 300, 400 and 600 Areas and Groundwater. Key cleanup activities include:

- **Facility Cleanup:** Activities necessary to achieve a final end state for the facility (e.g., deactivation, decontamination, decommission, demolition, entombment or dismantlement, and site restoration), including closure of any TSDs. Activities necessary for safe and secure storage of Cesium and Strontium Capsules, Spent Nuclear Fuels (SNF), Special Nuclear Material (SNM), Nuclear Material (NM), and Nuclear Fuel (NF) until these materials can be transferred to another facility, sold, or dispositioned. Activities also include nuclear material stabilization.
- **Waste Site Cleanup:** Activities necessary to complete the remediation per the requirements of the applicable CERCLA ROD or EE/CA. Remediation of a waste site is complete when the regulator has approved a Cleanup Verification Package.
- **Facility and Waste Site Surveillance & Maintenance:** Activities necessary to ensure that a site or facility remains in a physically safe and environmentally secure condition. Includes periodic inspections and monitoring of the property, appropriate contamination control actions, and required maintenance of barriers controlling access.
- **Groundwater Protection:** Activities necessary to protect the Columbia River and the near-

shore environment. Includes groundwater monitoring and remediation to control the migration of plumes that threaten groundwater quality beyond the boundaries of the Central Plateau.

### **C.1.2 Waste and Spent Nuclear Fuel (SNF) Management Operations Overview**

Provide centralized facilities for the treatment, storage, and disposal of solid waste; interim safe storage for Hanford Site SNF; and treatment and disposal of liquid effluents in support of Hanford cleanup activities and DOE complex-wide projects. This includes the management, operations, surveillance, monitoring, and maintenance of buildings, burial grounds, and current waste inventories. Key waste and SNF operations activities include:

- **Safe & Compliant Operations:** Activities necessary to ensure facilities, structures, operating systems and equipment, and monitoring systems are maintained within the authorization envelope until the facilities are transferred for cleanup. Secondary waste streams are prepared and packaged for disposition as required and disposed as appropriate. Radiological control and access control is maintained to ensure personnel safety.
- **Treatment:** Activities necessary to prepare existing waste in storage and newly generated wastes resulting from clean up operations for disposal. This includes preparation and packaging of SNF from dry storage for disposal. Treatment is considered complete when the wastes are made disposition ready and transferred to interim storage or the appropriate disposition system.
- **Storage Pending Disposition:** Activities necessary to provide interim storage for treated wastes for which there are no national policies for disposition. The wastes will be stored until such time as a national policy is determined and then disposed in accordance with that policy. SNF and wastes for which there is a national disposal policy but for which the disposal facility is not yet in operation will be stored until the disposal facility is ready to accept the SNF and waste.
- **Disposition:** Activities necessary to dispose waste and SNF onsite at an approved disposal facility or to transport it to sites identified by national policy to receive the wastes and SNF. Waste and SNF is considered to be dispositioned when it is accepted at the disposal facility or receiving site.

### **C.1.3 Infrastructure and Hanford Site Services**

Maintain a viable site infrastructure to support the Hanford mission beyond FY 2006. Support the Hanford Site cleanup and science and technology missions by providing mandatory site services to all site contractors. Key activities include:

- **Analytical Services:** Activities necessary to acquire samples and accurately describe their composition or other qualities. This includes expertise in chemistry and data quality, field and sampling services, and waste and environmental sample analysis.
- **Emergency Response:** Activities necessary to respond to events like fire, medical, rescue, and hazardous materials emergencies.

- **Information Resource Management:** Activities necessary to provide telecommunications; computer software, hardware, and programming support; operation of business systems.
- **Maintenance:** Activities necessary to sustain performance and serviceability of equipment, vehicles, roads, grounds, and general-purpose facilities excluding services to CHG after April 15, 2003.
- **Property Disposition:** Activities necessary to disposition property determined to be excess and devalued to zero.
- **Safeguards and Security:** Activities necessary to provide qualified security officers, special nuclear material control and accountability, protect site assets, control access, track radioactive shipments, and round-the-clock threat response.
- **Utilities:** Activities necessary to provide electricity, water, sanitary sewer, and solid sanitary waste disposal.

#### **C.1.4 Other Work Scope**

This Contract contains other work scope not solely associated with site cleanup, waste and SNF management operations, or site services. Other work scope is necessary for the successful accomplishment of the Contract. It includes Environment, Safety, Health & Quality (ESH&Q) support and Emergency Management and Preparedness for Contract activities and assigned facilities. It includes Contractor Project Management activities and products. It also includes support provided directly to RL and request-for-service activities.

#### **C.1.5 Other Prime Contractors**

The Contractor may, from time to time, provide services to and receive services from other Prime Contractors by memoranda of agreement. The contractor is responsible for interfacing and coordinating with other Hanford Site Prime Contractors in the performance of its work.

#### **C.1.6 Government Furnished Services/Items**

Within ninety (90) days after the effective date of this contract modification and by September 1 prior to each fiscal year end, the Contractor will provide the Contracting Officer an annual projection of needed Government Furnished Services/Items (GFS/I), identified in the GFS/GFI column in Sections C.2 through C.5 of this contract, for DOE approval. The Contractor will also provide quarterly updates to the Contracting Officer. Amendments to the projection, if any, will be provided to the Contracting Officer 45 days in advance of the need date. Each Contractor submittal (annual, quarterly, or individual) shall be reviewed by DOE. Within 15 days after receipt, DOE shall notify the Contractor whether it will accept the requested GFS/I. If DOE cannot accept, DOE will identify in writing no later than 30 calendar days after receipt of Contractor's notification, the requested GFS/I it can accept and provide. If DOE cannot accept

the request for GFS/I that is within the ranges in the GFS/GFI column in Sections C.2 through C.5, then it shall be treated as a change in accordance with the clause entitled "Changes - Cost-Reimbursement" in this Contract.

DOE shall review and approve authorization basis documents submitted by the contractor as required by the terms and conditions of the contract and identified in the GFS/GFI column in Sections C.2 through C.5 of this contract. DOE and the contractor shall use a collaborative process in ensuring authorization basis documents are developed in a quality manner meeting applicable laws and DOE directives and are reviewed and approved in a timely manner. For authorization documents not contained in Sections C.2 through C.5 of this Contract, DOE will review and either approve (with or without comments) or disapprove (with comments and basis) as follows:

- Documented safety analysis (DSA)/Technical Safety/Requirement (TSR) – 16 weeks
- Preliminary DSA – 16 weeks
- TSR – 8 weeks
- Minor Safety Basis change – 6 weeks
- Annual update to DSA – 8 weeks
- Unreviewed Safety Question/justification for continued operations – 6 weeks
- Health and Safety Plan – 10 weeks
- Safety Analysis reports for packaging (on site) – 12 weeks

## C.2 Project Hanford Cleanup Work Summary

### C.2.1 100 Area Cleanup Work

#### C.2.1.1 100 Area Facility Cleanup

##### C.2.1.1.1 K Basin Deactivation

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Maintain Safe &amp; Compliant 100 K Area Facilities</b> Operate and maintain assigned 100 K Area facilities and associated waste sites, structures, operating systems and equipment, and monitoring systems within the authorization envelope. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	The Contractor shall design, install, construct, manage and operate all new or modified 100 K Area facilities associated with SNF stabilization, packaging and transport to interim storage.  <b>This work scope shall be done in compliance with:</b> <ul style="list-style-type: none"> <li>• 61 FR 10736, March 15, 1996, Doc. 96-6291</li> <li>• DOE/EIS-0245-SA1, "Supplemental Analysis for EIS-0245F"</li> <li>• HNF-5356, "Spent Nuclear Fuel Project Authorization Agreement"</li> </ul>	Authorization Agreement for K-Basins (review and update yearly)	Terminate the CVDF, K-East, and K-West Nuclear Facility designation requirements upon the shipment of the last product (fuel, scrap, sludge, and basin water) within 60 days of submission.
<b>Maintain Safe &amp; Compliant SNF Storage in K Basins</b> Provide safe and compliant storage of SNF at K Basins until it has been removed.	The K Basin sludge shall be managed as SNF while in the basins, but SNM accountability requirements shall not apply to sludge subsequent to sludge being loaded into large diameter casks and safeguard requirements terminated.  <b>This work scope shall be done in compliance with:</b> <ul style="list-style-type: none"> <li>• CRO M474.1-1, "Manual for Control and Accountability of Nuclear Materials"</li> <li>• CRO C1470.1, Chg 1 (Supp Rev 1), "Safeguards and Security Program Requirements"</li> <li>• HNF-5356, "Spent Nuclear Fuel Project Authorization Agreement"</li> </ul>	None Identified	None Identified
<b>Remove K Basins SNF</b> Remove and clean fuel elements from existing canisters and load into separate baskets prior to placement in the MCO. Place the baskets in an MCO and transfer to the CVD Facility for drying.	All spent nuclear fuel (except additional fuel fragments that may be discovered during sludge removal) shall be removed from the K Basins.  <b>This work scope shall be done in compliance with:</b> <ul style="list-style-type: none"> <li>• 61 FR 10736, March 15, 1996, Doc. 96-6291</li> <li>• CRO C1461.1, "Packaging and Transfer or Transportation of Materials of National Security"</li> <li>• DOE/RL-89-10, "Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement), Revision 5"</li> <li>• HNF-5356, "Spent Nuclear Fuel (SNF) Project K Basins Authorization Agreement"</li> </ul>	M-034-18B: Complete removal of all K Basin Spent Nuclear Fuel. This interim milestone will be complete when all spent nuclear fuel has been removed from both the K West Basin and the K East Basin and has been transported to the cold vacuum drying facility. It is understood that additional fuel fragments may be discovered during removal of the sludge. <b>Due:</b> 31 July 2004	Approve technical basis for 5 or 6 scrap baskets per MCO within 42 days of submittal
<b>Dry K Basins SNF</b> Load MCOs with SNF from KE and KW Basins, dry the MCO and the fuel to remove free water, and transport the loaded MCO to the Canister Storage Building.	Spent Nuclear Fuel removed from the K Basins shall be stabilized for on site storage in the 200 Area.  Water from the K Basins and Cold Vacuum	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	<p>Drying facility shall be treated through ion-exchangers to maintain safe conditions within the basins.</p> <p>This work scope shall be done in compliance with:</p> <ul style="list-style-type: none"> <li>• CRDC 460.2, Chg 1, "Departmental Materials Transportation &amp; Packaging Management"</li> </ul>		
<p><b>Remove K Basins Sludge</b> Retrieve and package K Basins sludge and transport it to T-Plant for storage.</p>	<p>The characteristics of K Basin sludge and package shall meet the waste acceptance criteria for T-Plant.</p> <p>This work scope shall be done in compliance with:</p> <ul style="list-style-type: none"> <li>• 61 FR 10736, March 15, 1996, Doc. 96-6291</li> <li>• CRDC 460.2, Chg 1, "Departmental Materials Transportation &amp; Packaging Management"</li> <li>• DOE/RL-89-10, "Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement), Revision 5"</li> <li>• HNF-5356, "Spent Nuclear Fuel (SNF) Project K Basins Authorization Agreement"</li> </ul>	None Identified	<p>Authorize start-up, removal, transportation, and storage of sludge in T-Plant at completion of operational readiness process.</p> <p>Approve Formal Deviation (variance) to allow safeguards measures for on site storage of SNF Sludge, Scrap Debris (e.g., at T-Plant) to be achieved by a combination of application of formal Administrative controls and Tamper Indicating Devices (TID) directly to Cell Block covers, vs. applying TIDs to individual containers within 60 days of submittal.</p> <p>Approve SNM Accountability Deviation Request to allow Termination of SNM Safeguards for K-East sludge, prior to shipment to T Plant, within 40 days of submittal.</p>
<p><b>Remove K Basins Debris</b> Clean canisters and debris in the KE and KW Basins and transfer to on site facilities for disposition.</p>	<p>Debris from the 100 K Area facilities shall be transferred for disposal to the Environmental Restoration Disposal Facility (ERDF).</p> <p>Debris not acceptable under the ERDF waste acceptance criteria shall be disposed at the 200 Area Low level Burial Grounds.</p> <p>This work scope shall be done in compliance with:</p> <ul style="list-style-type: none"> <li>• 61 FR 10736, March 15, 1996, Doc. 96-6291</li> <li>• DOE/RL-89-10, "Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement), Revision 5"</li> <li>• HNF-5356, "Spent Nuclear Fuel (SNF) Project K Basins Authorization Agreement"</li> </ul>	<p>Removed empty fuel canisters (M-034-09) <b>Due:</b> 31 January 2005</p>	None Identified

### C.2.1.1.2 Balance of 100 Area Facilities Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Disposition 100 Area Facilities</b> Perform the facility assessment and submit for the lead regulating agency and DOE decision. Perform transition activities (e.g., flush, isolate and blank process or sub-process systems; remove radioactive and hazardous materials and mixed wastes; deactivate non-essential systems and utilities; remove excess materials and equipment). Achieve the final end state for the facility (e.g. entombment or dismantlement and site restoration) including closure of any TSDs. At the point where all systems and spaces at the facility achieve their respective end state condition, disposition is achieved and the DOE will verify the end state.	The Contractor shall disposition the assigned 100 Area facilities in compliance with regulator and DOE decisions.	Facilities transitioned and dispositioned as identified in table below.	Approve end point criteria within 60 days of submittal

### C.2.2.1.2 Plutonium Finishing Plant (PFP) Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Maintain Safe and Secure SNM</b> Provide safe and compliant storage of Special Nuclear Material (SNM) at PFP until it has been removed from the PFP complex.	<p>The Contractor shall meet the international safeguards agreements (including IAEA requirements) for plutonium-bearing materials at PFP assigned to IAEA.</p> <p>The Contractor shall support DOE and the U.S. State Department nuclear non-proliferation objectives.</p> <p>The Contractor shall support on site International Atomic Energy Agency visits, activities, and nuclear transactions.</p> <p>Immediately upon SNM de-inventory, legacy hold up removal, Protected Area elimination, and after limited areas are no longer required, CRD O 473.2 and CRD 5480.20A shall no longer apply to PFP.</p> <p>Immediately upon SNM de-inventory DOE 1270.2B shall no longer apply to PFP.</p> <p><b>This work scope shall be done in compliance with:</b></p> <ul style="list-style-type: none"> <li>• HNF-933C, "Plutonium Finishing Plant Authorization Agreement"</li> <li>• CRD 5480.20A, "Personnel Selection, Qualification, and Training Requirements for DOE Nuclear Facilities"</li> <li>• CRD M 474.1-1, "Manual for Control and Accountability of Nuclear Materials"</li> <li>• CRD C 461.1, "Packaging and Transfer or Transportation of Materials of National Security"</li> <li>• CRD C 470.1, Chg 1 (Supp Rev 1), "Safeguards and Security Program Requirements"</li> <li>• CRD C 473.2, "Protective Force Program"</li> <li>• DOE 1270.2B, "Safeguards Agreement with the International Atomic Energy Agency"</li> </ul>	<p>Annual Review of Nuclear Materials Management &amp; Safeguards System (NMSS) T-147 Project Number worksheet, Chapter VIII</p> <p>Nuclear Materials Allotment Status Report, Year End (Annual)</p> <p>Nuclear Materials Inventory Assessment Report (Annual)</p> <p>PFP Protected Area eliminated <b>Due:</b> 30 December 2005</p>	<p>Approve the safeguards and security plan for elimination of the PFP protected area within 90 days of submittal</p> <p>Approve requests for reconfiguration and/or elimination of MBAs and MAAs within 30 days of receipt.</p> <p>Expedite non-PSAP security clearance processing for large number of PFP new hires; average Q clearance processing durations reduced to 6 months; clearances active at other DOE sites can be transferred to Hanford</p> <p>Approved PSAP personnel that transfer from other sites, complete Hanford-specific PSAP requirements and pre-certification documents, are approved into the Hanford PSAP program within 5 working days.</p>
<b>Maintain Safe and Compliant PFP</b> Operate and maintain the PFP facilities and associated waste sites, structures, operating systems and equipment, and monitoring systems within the authorization envelope. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	<p><b>This work scope shall be done in compliance with:</b></p> <ul style="list-style-type: none"> <li>• HNF-933D, "Plutonium Finishing Plant Authorization Agreement"</li> <li>• CRD M 474.1-1, "Manual for Control and Accountability of Nuclear Materials"</li> <li>• CRD C 461.1, "Packaging and Transfer or Transportation of Materials of National Security"</li> <li>• CRD C 470.1, Chg 1 (Supp Rev 1), "Safeguards and Security Program Requirements"</li> </ul>	<p>Authorization Agreement for PFP (Review and update yearly)</p> <p>PFP update to Final Safety Analysis Report (SAR) (including Hazard Analysis Data) (Annual)</p> <p>M-83-31: Discontinue Waste Discharges from the 241-Z Tanks to Tank Farms <b>Due:</b> 30 June 2005</p> <p>Plutonium Vulnerability Status Report (Annual)</p>	<p>Approve revised authorization agreement within 42 days of submittal</p>
<b>Stabilize SNM</b> Stabilize and repackage Plutonium-bearing materials in storage at PFP (excluding fuel pins and assemblies).	<p>PFP residues that meet the WIPP Waste Acceptance Criteria shall be disposed as TRU or TRU-Mixed Waste.</p> <p>Low plutonium content material that meets Hanford Solid Waste Acceptance Criteria shall be disposed as Low Level or Low Level-Mixed Waste.</p>	<p>DNFSB 1994-1/2600-1 Pu bearing materials stabilized and packaged <b>Due:</b> 18 February 2004</p> <p>M-83-13: Complete Repackaging of PFP Residues and Ship to CWC <b>Due:</b> 30 April 2004</p>	<p>Formal direction as to the disposition path for 126 items requested by LLNL <b>Due:</b> 31 January 2003</p> <p>If the disposition path for the 126 items is LLNL, LLNL must accept all material no later than 2/18/04 or relief will be granted from the</p>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	<p>This work scope shall be done in compliance with:</p> <ul style="list-style-type: none"> <li>• G-ESR-G-00035, Rev. 1, dated July 26, 2000, "Savannah River Site Stabilization and Packaging Requirements for Plutonium Bearing Materials in Storage"</li> <li>• LA-UR-00-3245, "Integrated Surveillance Program in Support of Long-Term Storage of Pu-Bearing Materials" DOE-STD-3013, "Stabilization, Packaging and Storage of Plutonium - Bearing Materials"</li> <li>• DOE/EIS-0244-FS-1, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-2, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-3, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-4, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-5, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-6, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-7, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-8, "Supplement Analyses"</li> <li>• DOE/EIS-0244-FS-9, "Supplement Analyses"</li> <li>• DOE/EIS-0244F, "Record of Decision for Plutonium Finishing Plant Stabilization Final EIS", June 1996</li> <li>• DOE/WIPP-02-3122, Rev. 0.1, "Contact-Handle 1 Transuranic Waste Acceptance Criteria for the Waste Isolation Pilot Plant"</li> </ul>		<p>2/18/04 date. Further, if the disposition path is to JLNLI, the SAFKEG SARP (CoC) must be approved. Due: 1 March 2003</p> <p>DOE-SR approval of PFP's compliance with SRS acceptance criteria within 60 days of submittal</p> <p>Approve Safeguards Termination Limit (STL) for low plutonium content mixed oxides and Group II alloys (dispose as is) within 60 days of submittal.</p> <p>Obtain 9975 SARP Certificate of Compliance amendment allowing PFP 3013s. Due: 28 February 2003</p> <p>Expedite non-PSAP security clearance processing for large number of PFP new hires; average Q clearance processing durations reduced to 6 months; clearances active at other DOE sites can be transferred to Hanford. Approved PSAP personnel that transfer from other sites, complete Hanford-specific PSAP requirements and pre-certification documents, are approved into the Hanford PSAP program within 5 working days.</p>
<p><b>Disposition SNM</b> Remove SNM from PFP and transport to either Savannah River or alternate on site interim storage facility. Pending final decision from DOE, develop alternate on site interim storage capability. Remove legacy Pu holdup materials from PFP buildings, equipment, ducts, and gloveboxes.</p>	<p>All plutonium shall be packaged in certified Type B accident resistant packages for transport.</p> <p>All off site shipments of plutonium shall be by SST or commercial carrier in compliance with applicable DOE, U.S. Department of Transportation and U.S. Nuclear Regulatory Commission requirements and regulations.</p> <p>Low plutonium content material that meets Hanford Solid Waste Acceptance Criteria shall be disposed as radioactive solid waste.</p> <p>Readily retrievable hold-up material shall be removed, treated (if required), packaged and dispositioned.</p> <p>This work scope shall be done in compliance with:</p> <ul style="list-style-type: none"> <li>• G-ESR-G-00035, Rev. 1, dated July 26, 2000, "Savannah River Site Stabilization and Packaging Requirements for Plutonium Bearing Materials in Storage"</li> <li>• CRD O 460.2, Chg 1, "Departmental Materials Transportation &amp; Packaging Management"</li> <li>• CRD O 461.1, "Packaging and Transfer or Transportation of Materials of National Security"</li> <li>• DOE-STD-3013, "Stabilization, Packaging</li> </ul>	<p>Special nuclear material transferred to Savannah River Site or DOE approved interim storage Due: 30 September 2005</p> <p>Legacy Pu holdup removed and dispositioned Due: 30 September 2005</p> <p>M-83-14: Complete 100% Legacy Pu Holdup Removal Due: 30 September 2006</p>	<p>DOE-SR approval of PFP's compliance with SRS acceptance criteria within 60 days of submittal.</p> <p>Approve Supplement Analysis and Record of Decision amendment for PFP Weapon Grade and Fuel Grade material. Due: 28 February 2003</p> <p>Obtain 9975 SARP Certificate of Compliance amendment allowing PFP 3013s. Due: 28 February 2003</p> <p>At least 75 9975s certified over packs will be made available to PFP from Rocky Flats. Due: 28 February 2003</p> <p>Obtain SAFKEG Certificate of Compliance. Due: 1 March 2003</p> <p>Approve SRS/RL Shipper/Receiver Plan Due: 31 January 2003</p>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	and Storage of Plutonium - Bearing Materials" • DOE/EIS-0283, "Record of Decision for the Surplus Plutonium Disposition Final EIS", January 2000		<p>Approve one-time exception to ship FFTF fuel to SRS in M60 and RRSCs, or approve V.A. and deviation that supports disposition by commingling with irradiated fuels within 90 days of submittal.</p> <p>Provide SST beginning 1 November 2003, at a rate to achieve an average of 16.5-truck and trailer shipments per quarter until de-inventory is completed or provide written direction to proceed with the design, construction and loading of an alternate on-site storage facility.</p> <p>Approve Legacy Holdup Removal and Disposition plan within 60 days of receipt.</p> <p>Approve STL(s) for discard of legacy Pu holdup within 60 days of submittal</p>
<p><b>Disposition PFP</b> Disposition PFP buildings (61) to demolition-ready condition.</p>	<p>The PFP and associated facilities shall be made ready for demolition.</p> <p>Remediation of tank 241-Z-361 is not in this accelerated closure work scope, however, the Contractor shall complete the EE/CA and Action Memorandum for this tank.</p> <p>Underground equipment and tanks (e.g., septic tanks, fuel tanks, waste tanks) and utilities (e.g., drain lines, ducts, power lines, cathodic protection, etc.) will not be remediated and will be left in place, unless specifically noted in the end point criteria document.</p> <p><b>This work scope shall be done in compliance with:</b> • HN-9-8330, Rev 0, "Plutonium Finishing Plant Authorization Agreement between US Department of Energy, Richland Operations Office and Fluor Hanford, Inc." • DOE-STD-3013, "Stabilization, Packaging and Storage of Plutonium - Bearing Materials"</p>	<p>PFP Facilities (61 buildings) ready for demolition <b>Due:</b> 30 September 2006</p> <p>M-83-20: Submit Facility End Point Criteria Document to Ecology <b>Due:</b> 30 September 2003</p> <p>M-83-21: Submit to Ecology a PFP Residual Chemical Hazards Assessment <b>Due:</b> 31 December 2002</p> <p>M-83-30: Submit Closure Plan for 241-Z Waste Treatment Facility TSD Unit to Ecology <b>Due:</b> 31 July 2003</p> <p>M-83-40: Complete Transition &amp; Dismantlement of the 232-Z Bldg Incinerator <b>Due:</b> 30 September 2006</p>	<p>Approve 232-Z Documented Safety Analysis (DSA) within 60 days of submittal</p> <p>Approve PFP D&amp;D Basis for Interim Operations (BIO) within 60 days of submittal</p> <p>Decision on PFP Transition Environmental Assessment within 180 days of submittal</p> <p>Approve facility End Point Criteria document within 90 days of submittal.</p> <p>Expedite non-PSAP security clearance processing for large number of PFP new hires; average Q clearance processing durations reduced to 6 months; clearances active at other DOE sites can be transferred to Hanford.</p> <p>Approved PSAP personnel that transfer from other sites, complete Hanford-specific PSAP requirements and pre-certification documents, are approved into the Hanford PSAP program within 5 working days.</p> <p>No security clearances are required for PFP complex and all Protected Area and internal access and egress controls are eliminated once legacy Pu holdup removal and SNM De-inventory are complete.</p> <p>US/Russian NDA activities</p>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GEI
			will be conducted on a non-interference basis and will be terminated by 30 September 2003  Approve RCRA, Clean Air Act, NHPA, NEPA, CERCLA submittals in accordance with standard approval process durations.

### C.2.2.1.3 Waste Encapsulation and Storage Facility (WESF) Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFT
Maintain Safe and Compliant WESF Safely store the cesium and strontium capsules in the WESF pool cells. Operate and maintain the WESF facilities and associated waste sites, structures, operating systems and equipment, and monitoring systems within the authorization envelope. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	This work scope shall be done in compliance with: • HNF-10611, "WESF Authorization Agreement" • CRD N 473.6, "Security Conditions" • CRD O 470.1, Chg 1 (Supp Rev 1), "Safe guards and Security Program Requirements"	Waste Encapsulation and Storage Facility Update to Final Safety Analysis Report (SAR) (Including Hazard Analysis Data) (Annual)  Authorization Agreement for WESF (review and update yearly)	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Place Capsules in Dry Storage</b> Remove cesium and strontium capsules from the WESF pool cells, package the capsules for dry storage, and transport the capsules to a dry storage location. When the HLW repository is made available for disposal of HLW, the capsules will be shipped to the repository for disposal.	<p>The Contractor shall complete design, procure, install, and construct dry storage system(s) for cesium and strontium capsules.</p> <p>The Contractor shall initiate transfer of the capsules to dry storage.</p> <p>The Contractor shall complete transfer of the cesium and strontium capsules from the WESF pool cells to dry storage.</p> <p>The Contractor shall provide safeguards and security for the capsules in dry storage.</p> <p><b>Post Contract Period:</b></p> <p>When the HLW repository is made available for disposal of HLW, the capsules will be packaged and shipped to the repository for disposal.</p> <p><b>This work scope shall be done in compliance with:</b></p> <ul style="list-style-type: none"> <li>• CRD ( ) 460.2, Chg 1, "Departmental Materials Transportation &amp; Packaging Management"</li> <li>• CRD ( ) 470.1, Chg 1 (Supp Rev 1), "Safeguards and Security Program Requirements"</li> <li>• CRD ( ) 473.2, "Protective Force Program"</li> </ul>	<p>Cesium/Strontium (Cs/Sr) capsules placed into dry storage</p> <p><b>Due:</b> 30 September 2006</p>	<p>Gain concurrence NEPA/SEPA, RCRA permitting/NOC can start based on conceptual design.</p> <p><b>Due:</b> 31 March 2004</p> <p>Approve Cs/Sr safety analysis within 60 days of submittal.</p> <p>Approve Vulnerability Assessment within 60 days of submittal</p> <p>Issue authorization to proceed no later than 1 April 2003.</p> <p>Approve start of safety analysis based on conceptual design report.</p>
<b>Transition WESF</b> Deactivate the WESF after all the capsules have been removed from the WESF pool cells.	<p><b>Post Contract Period:</b></p> <p>The Contractor shall clean close the permitted portions of the WESF in compliance with the WESF RCRA closure plan.</p>	None Identified	None Identified
<b>Disposition WESF</b> Disposition the WESF through demolition of ancillary buildings and demolition or entombment of the 225-B process cells and filter pits.	<p><b>Post Contract Period:</b></p> <p>The Contractor shall complete D4 of the WESF buildings after removal of cesium and strontium capsules.</p>	None Identified	None Identified

#### C.2.2.1.4 Balance of 200 Area Facilities Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GIT
<b>Disposition Balance of the 200 Area Facilities</b> Perform the facility assessment and submit for the lead regulating agency and DOE decision. Perform transition activities (e.g., flush, isolate and blank process or sub-process systems; remove radioactive and hazardous materials and mixed wastes; deactivate non-essential systems and utilities; remove excess materials and equipment). Achieve the final end state for the facility (e.g. entombment or dismantlement and site restoration) including closure of any TSDs. At the point where all systems and spaces at the facility achieve their respective end state	<b>Post Contract Period:</b> The Contractor shall disposition the assigned 200 Area facilities in compliance with regulator and DOE decisions. The Hallam and SRE sodium stored in 2727-W and the South Alkali Metal Storage Facility will be dispositioned along with the FFTF bulk sodium as described in Section C.2.4.1, "Disposition FFTF Sodium".	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Condition, disposition is achieved and the DOE will verify the end state.

### C.2.2.1.5 Railcar Disposition

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Disposition Railcars</b> Perform final disposition of the Railroad System, including railcars, once the Department of Energy declares the system excess and no longer needed to support the Hanford Site Mission.	The Contractor shall disposition the following contaminated railcars and equipment: 2 Railcars located at T-Plant 1 Condenser located on T-Plant Railcar 1 Drag-off burial box located on T-Plant Railcar	Identified contaminated railcars and equipment dispositioned. <b>Due:</b> 30 September 2003	Approve radiological release plans, volumetric radiological release values, and disposition location within 30 days of submittal

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	<p>2 Railcars located in 183-K-W</p> <p>2 Concrete boxes containing contaminated Ion Exchange Columns loaded on railcars in 183-K-W</p> <p>5 Pieces of regulated heavy equipment currently included in the EDP.</p> <p>Ownership of contaminated railcars shall be transferred from DOE-RL or reused by DOE-RL, as documented by the title transfer (declaration of excess and shipping documents), completed Solid Waste Information and Tracking System (SWITS) document, or other mutually agreed upon documents.</p> <p>The contaminated railcars shall be physically moved from their current location to their final disposition location approved by the DOE-RL Contracting Officer Representative.</p> <p><b>Post Contract Period:</b></p> <p>The Contractor shall disposition the Railroad System and remaining railcars, once the Department of Energy declares the system excess and no longer needed to support the Hanford Site Mission.</p>		

#### C.2.2.2 200 Area Waste Site Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<p><b>Remediate 200 Area Waste Sites</b></p> <p>Perform waste site assessments and submit Decisional Draft documents for DOE review and Draft A documents for regulatory review. Remediate waste sites in accordance with approved record of decision (ROD). Submit a cleanup verification package (CVP) for each waste site (or groups of waste sites) to the lead regulator and obtain regulator approval.</p>	<p>The Contractor shall initiate remedial actions for high risk waste sites in the Central Plateau in compliance with regulator and DOE decisions.</p> <p>Groundwater protective measures (e.g., installation of engineered barriers, stabilization, and/or removal - does not include final backfilling, re-vegetation, and verification/closeout sampling) for waste sites in the U Plant Regional Area that are outside the proposed environmental cap shall be completed in accordance with the U Plant Area Waste Sites Record of Decision.</p> <p>BC Area cribs and trenches remediation, pipeline remediation, and BC Controlled Area Surface Cleanup shall be completed as described in Hanford's Groundwater Plan: Accelerated Cleanup and Protection, 2002 and the Record of Decision.</p> <p><b>Post Contract Period:</b></p> <p>The Contractor shall complete remediation of the assigned 200 Area waste sites in compliance with regulator and DOE decisions.</p>	<p>Remediated BC cribs, trenches, and Control Area. <b>Due:</b> 30 September 2006</p> <p>Remediated U Plant Area waste sites <b>Due:</b> 30 September 2006</p> <p>Remediated waste sites as identified in the tables below.</p> <p>M-13-00M: 1 200 NPL RI/FS (RF/CMS) work plan for the 200-IS-1, tanks/lines/pits diversion boxes CAJ includes waste sites in the 200-ST-1, septic tank and drain fields OU <b>Due:</b> 31 December 2002</p> <p>M-13-00N: 1 200 NPL RI/FS (RF/CMS) work plans for the 200-UR-1, unplanned releases <b>Due:</b> 31 December 2003</p> <p>M-13-00O: 1 200 NPL RI/FS (RF/CMS) work plan for the 200-SW-2, radioactive landfills and dumps OU, includes waste sites in the 200-SW-1, Non-Radioactive Landfills and Dumps OU <b>Due:</b> 31 December 2004</p> <p>M-15-38A: 200-CW-1 Gable</p>	<p>Obtain approval of CERCLA Decision Documents (e.g., RODs) to support U Plant regional area closure.</p> <p>Obtain approval of CERCLA Decision Documents (e.g., RODs) to support the BC Cribs and Trenches regional closure. <b>Due:</b> 30 September 2004</p> <p>Approve CVP within 30 days of submittal.</p>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
		<p>Mountain Pond/B Pond and ditch cooling water group feasibility study, including 216-N-1, 216-N-2, 216-N-3, 216-N-4, 216-N-5, 216-N-6, 216-N-7, UPR-200-F-34, 600-118, 200-N-3, 600-254, 2607-N, 2607-R, UPR-200-N-1, and UPR-200-N-2 past practice waste sites and 200-CW-1 gable mountain pond/b pond and ditch cooling water group proposed plan/proposed RCRA permit modification Due: 31 March 2003</p> <p>M-15-39A: Completed chemical sewer group field work through sample collection and analysis. Due: 30 September 2003</p> <p>M-15-39B: 200-CS-1 chemical sewer group RI report Due: 31 May 2004</p> <p>M-15-39C: 200-CS-1 chemical sewer group FS and submit 200-CS-1 chemical sewer group proposed plan/proposed RCRA permit modification Due: 30 November 2005</p> <p>M-15-40B: 200-CW-5 U Pond/Z-Ditches Cooling Water group RI report including the past practice waste sites in the 200-CW-2 S-Ponds/Ditches Cooling Water group, the 200-CW-4 T-Ponds/Ditches Cooling Water group, and the 200-SC-1 Steam Condensate group Due: 31 May 2003</p> <p>M-15-40C: 200-CW-5 Pond/Z Ditches Cooling Water group FS and submit 200-CW-5 U Pond/Z Ditches Cooling Water group proposed plan including the past practice waste sites in the 200-CW-2 S-Ponds/Ditches Cooling Water group, the 200-CW-4 T-Ponds/Ditches Cooling Water group, and the 200-SC-1 Steam Condensate group Due: 31 October 2004</p> <p>M-15-41C: 200-TW-1 OU and 200-TW-2 OU FS and proposed plan to EPA and Ecology. Includes the past practice waste sites in the 200-PW-5 fission product-rich process waste group. Due: 31 March 2004</p>	

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
		<p>M-15-43B: 200-PW-2 OU RI report including the past practice waste sites in the 200-PW-4 general process waste group <b>Due:</b> 30 June 2004</p> <p>M-15-43C: 200-PW-2 OU feasibility study and proposed plan/proposed RCRA permit modification including the past practice waste sites in the 200-PW-4 general process waste group <b>Due:</b> 31 December 2005</p> <p>M-15-44A: 200-MW-1 OU remedial investigation report. <b>Due:</b> 31 December 2005</p> <p>M-15-46A: 200 Area chemical laboratory waste OUs remedial investigation report, including the past practice waste sites in the 200-LW-1 and 200-LW-2 200 Area chemical laboratory groups <b>Due:</b> 31 October 2005</p> <p>M-15-46B: 200 Area chemical laboratory waste OUs feasibility study and proposed plan/proposed permit modification, including the past practice waste sites in the 200-LW-1 and 200-LW-2 200 area chemical laboratory groups. <b>Due:</b> 30 September 2006</p> <p>M-15-47: Proposed plan to EPA and/or Ecology to conduct remedial action(s) for source control at high-risk waste site(s) which includes an engineering evaluation of an engineered surface barrier. <b>Due:</b> 30 June 2005</p> <p>M-20-33: 216-A-10 crib, 216-A-36B crib, 216-A-37-1 crib, and 207-A south retention basin closure/post closure plans to Ecology <b>Due:</b> 31 December 2005</p> <p>M-20-39: 216-S-10 Pond and Ditch closure/post-closure plan to Ecology <b>Due:</b> 30 November 2005</p>

### C.2.2.3 200 Area Surveillance and Maintenance

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Provide Surveillance and Maintenance on Surplus Canyon Facilities</b> Maintain assigned waste sites, facilities, structures, operating systems and equipment, and monitoring systems within the authorization envelope until the facilities are dispositioned. Maintain radiological control and access control to the surplus canyon and ancillary facilities to ensure personnel safety.	The Contractor shall perform surveillance and maintenance on the surplus canyon buildings and structures.  <b>This work scope shall be done in compliance with:</b> • HNF-5915, Rev. 2, "PUREX Storage Tunnels Authorization Agreement"	Installed PUREX roof <b>Due:</b> 30 November 2002  Installed B Plant Roof <b>Due:</b> 30 November 2002  Authorization Agreement for PUREX (Review and update yearly)  Authorization Agreement for 233-S (review and update yearly)  Authorization Agreement for B Plant (review and update yearly)  Authorization Agreement for PUREX Facility Storage Tunnels (review and update yearly)  Authorization Agreement for 224-T (review and update yearly)	None Identified
<b>Provide Surveillance and Maintenance on 200 Area Facilities after Shutdown</b> Maintain assigned facilities, structures, operating systems and equipment, and monitoring systems in compliance with applicable directives and regulatory documents until the facilities are dispositioned. Maintain radiological control and access control to the surplus facilities to ensure personnel safety. Surveillance and maintenance will also be conducted on 200 Area general purpose facilities.	The Contractor shall perform surveillance and maintenance on the assigned 200 Area buildings and structures.	None Identified	None Identified
<b>Provide Surveillance and Maintenance of</b>	Provide Surveillance and Maintenance on	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
200 Area Waste Sites Perform surveillance and maintenance on assigned waste sites.	200 Area Facilities after shutdown		

## C.2.3 300 Area Cleanup Work

### C.2.3.1 300 Area Facility Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Disposition 300 Area Facilities</b> Perform the facility assessment and submit for the lead regulating agency and DOE decision. Perform transition activities (e.g., flush, isolate and blank process or sub-process systems; remove radioactive and hazardous materials and mixed wastes; deactivate non-essential systems and utilities; remove excess materials and equipment). Achieve the final end state for the facility (e.g., entombment or dismantlement and site restoration) including closure of any TSDs. At the point where all systems and spaces at the facility achieve their respective end state condition, disposition is achieved and the DOE will verify the end state.	The Contractor shall disposition the assigned 300 Area facilities in compliance with regulator and DOE decisions.  <b>This work scope shall be done in compliance with:</b> • DOE/EA-0987, "Disposition of Alkali Metal Test Loops, Hanford Site, Richland, Washington"	Facilities transitioned and dispositioned as identified in table below.	Obtain approval of CERCLA EE/CA and Action Memorandum for dismantlement of assigned 300 Area facilities within 30 days of submittal

### C.2.3.2 300 Area Waste Site Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Remediate 300 Area Waste Sites Perform the waste site assessment and submit for the lead regulating agency and DOE Decision. Remediate the waste sites in accordance with the approved record of Decision (ROD). Submit a cleanup verification package (CVP) for each waste site (or groups of waste sites) to the lead regulator and obtain regulator approval.	Post Contract Period:  The Contractor shall remediate assigned 300 Area so 1 sites in accordance with the Record of Decision for the 300-FF-2 Operable Unit.	Remediated waste sites as identified in table below	Approve CVP within 30 days of submittal.

End State Definition			
Waste Site Number	Waste Site Description	Contract Period/Scope	Post-Contract Period/Scope
300-265	300-265, Pipe Trench Between 324 and 325 Buildings		• Complete Remedial Action
600-117	600-117, 300 Area Treated Effluent Disposal Facility (TEDF), 310 Building		• Complete Remedial Action

UPR-300-48	UPR-300-48, 325 Building Basement Topsy Pit		• Complete Remedial Action

### C.2.3.3 300 Area Surveillance and Maintenance

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Provide Surveillance and Maintenance on 300 Area Facilities after Shutdown Maintain assigned waste sites, facilities, structures, operating systems and equipment,	The Contractor shall perform surveillance and maintenance on the assigned 300 Area buildings, structures, and waste sites.	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
and monitoring systems in compliance with applicable directives and regulatory documents until the facilities are dispositioned. Maintain radiological control and access control to the surplus facilities to ensure personnel safety. Surveillance and maintenance will also be conducted on 300 Area general purpose facilities.			

### C.2.3.4 300 ACP Facilities Deactivation Pending Transfer to River Corridor Contract

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
<b>Maintain Safe and Compliant 300 ACP Facilities</b> Maintain the facilities and associated waste sites, structures, operating systems and equipment, and monitoring systems within the authorization envelope until the facilities are transferred to decommissioning activities. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	The Contractor shall provide minimum safe surveillance and maintenance of the assigned 300 Area facilities to reduce risks to workers, the public, and the environment pending eventual decontamination and decommissioning, and removal or closure.  <b>This work scope shall be done in compliance with:</b> • HNF-581C, "324 Building Deactivation Project Authorization Agreement"	None Identified	None Identified
<b>Deactivate 300 ACP Contaminated Facilities</b> Deactivate facility structure operating and monitoring systems. Identify, isolate, stabilize and remove building hazards (i.e. nuclear materials, chemicals) and place the building in a state that is ready for commencement of D&D.	The 324 Facility shall be transitioned to low-cost, stable, deactivated conditions (requiring minimal surveillance and maintenance) by August 31, 2006.  Non-permitted mixed waste units in the 324 Building; REC B-cell, REC D-cell and high level vault shall be closed by October 31, 2005.  The Radiochemical Engineering Cells (REC), the high-level vault (HLV) and low-level vault (LLV), the piping, and the associated areas shall be closed in compliance with DOE/RL 96-73, rev. 1.  The 327 Facility shall be transitioned to low-cost, stable, deactivated conditions (requiring minimal surveillance and maintenance) by April 30, 2007. 300 Area Special Case Waste (SCW) shall be removed and transferred for on site storage by September 30, 2006.  <b>This work scope shall be done in compliance with:</b> • DCE/EA-1319, "Disposition of Surplus Hanford Site Uranium, Hanford Site, Richland Washington" • DCE/RL-96-73, Rev 1, "The 324 Radiochemical Engineering Cells, High-Level Vault, Low-Level Vault, and Associated Areas Closure Plan"	Authorization Agreement 324 (review and update yearly)  M-89-00: Completed closure of non-permitted mixed waste units in the 324 building Rec B-Cell, Rec D-Cell, and high level vault. <b>Due:</b> 31 October 2005  M-92-12: Completed acquisition of new facilities, modification of existing facilities, and/or modification of planned facilities necessary for consolidated storage prior to disposal of Hanford Site 300 Area Special Case Waste (SCW). <b>Due:</b> 30 September 2006  M-92-16: Completed removal and transfer, and initiated storage of Phase III 300 Area SCW and materials. <b>Due:</b> 30 September 2006	None Identified
<b>Deactivate 300 ACP Non-contaminated Facilities</b> Deactivate facility operating and monitoring systems. Identify, isolate, stabilize and remove facility hazards (i.e. chemicals, industrial hazards) and place the building in	Non-radiological assigned facilities without identified future uses shall be transitioned to low-cost, stable deactivated conditions (requiring minimal surveillance and maintenance) pending eventual D&D and removal or closure.	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
State that is ready for commencement of D&D			
Deactivate 300 ACP Mobile Offices Characterize to determine the radiological conditions, particularly those of the roof. When contaminated roofs are found, the roof either will be decontaminated or the radiological contamination fixed in place. The mobile offices will be relocated for reutilization within the Hanford Site complex or expensed.		None Identified	None Identified

## C.2.4 400 Area Cleanup Work

### C.2.4.1 Fast Flux Test Facility (FFTF) Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Maintain Safe &amp; Compliant FFTF Complex</b> Maintain assigned facilities, structures, operating systems and equipment, and monitoring systems in compliance with applicable directives and regulatory documents until the facilities are decommissioned. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.		FFTF Update to Final Safety Analysis Report (FSAR) (Including Hazard Analysis Data) (Annual)  Discharge Monitoring Report for State Waste Discharge Permit ST 4501 (Quarterly)  Authorization Agreements for FFTF (review and update yearly)	Review and approve annual updates to the FFTF FSAR. Anniversary date for submittals is August 31.
<b>Transition FFTF Complex</b> Remove 376 irradiated and unirradiated fuel components from the FFTF Complex, package and ship to a secure storage area. Drain approximately 260,000 gallons of liquid metal (mostly sodium) from the reactor systems, the two fuel storage vessels, and their auxiliary systems and store in tanks located in the Sodium Storage Facility (SSF). Provide a protective blanket of inert gas over the approximately 3,600 gallons of residual sodium remaining temporarily in plant components until sodium is dispositioned. Drain and de-energize support systems as appropriate, in both the reactor and the support buildings in order to remove potential hazards.	The Contractor shall transition the Fast Flux Test Facility to low-cost, stable, deactivated conditions (requiring minimal surveillance and maintenance) pending final disposition.  The Contractor shall shut down the FFTF auxiliary systems not required to support immediate sodium residuals disposition and decommissioning.  The Contractor shall upgrade the FFTF closed loop ex-vessel handling machine.  The Contractor shall drain secondary heat transport sodium from the FFTF.  The Contractor shall drain the sodium from the FFTF reactor vessel, heat transport loops, and the two fuel storage vessels.  The Contractor shall complete repairs and upgrades to the FFTF Solid Waste Cask.  The Contractor shall procure Interim Storage Casks.  The Contractor shall wash the remaining fuel in FFTF and place it in Interim Storage Casks (ISCs).  This work scope shall be done in compliance with: • DCE/HA-0993, "Environmental Assessment, Shutdown of the Fast Flux Test	Facilities transitioned as identified in table below. (M-081-00)  Secondary IHX and primary heat transport system loops drained of sodium (Due: TBD)  Secondary heat transport system loops drained of sodium <b>Due: 31 May 2003</b>  81 fuel assemblies removed from FFTF <b>Due: 22 January 2004</b>  Deliverables for FFTF beyond 31 December 2003 are TBD	Approve the FFTF fuel offload security plan that the Contractor will submit by December 31, 2002 <b>Due: 1 April 2003</b>  Approve the SARP that addresses technical changes for the ISC and the transporter system for on site shipments within 60 days of submittal  Expedite processing of 8 - 12 security clearances for FFTF persons in critical positions within 90 days of submittal. Estimated submittal date April 1 - July 1, 2003.  Approve the T-3 license for shipment of sodium bonded fuel assemblies. The Contractor will submit the request for the revised Certificate of Compliance by March 31, 2003. <b>Due: 31 December 2003</b>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	Facility, Hanford Site, Richland, Washington • DOE/FL-89-10, "Hanford Federal Facility Agreement and Consent Order (Tri-Party Agreement), Revision 5"		
<b>Disposition FFTF Sodium</b> Operate the Sodium Storage Facility until sodium is dispositioned. Transport the bulk sodium by truck to Argonne National Laboratory - West (ANL-W) Sodium Processing Facility in Idaho, where it will be converted to sodium hydroxide. Return the sodium hydroxide to Hanford by truck where it will be used by the DOE Office of River Protection in the treatment of high-level tank waste at Hanford. Remove the residual sodium from the plant systems by a combination of in-situ cleaning and physical component removal for cleaning or storage.  Post Contract Period: Remove the residual sodium from the plant systems. Ship sodium to the ANL-W Sodium Processing Facility for conversion to usable sodium hydroxide.	Sodium residuals shall be accommodated to a stabilized condition such that long-term monitoring and surveillance of the FFTF could be conducted in a safe and environmentally sound manner.  The retrieved sodium from FFTF shall be stored in the Sodium Storage Facility.  <b>This work scope shall be done in compliance with:</b> • CRO 460.2, Chg 1, "Departmental Materials Transportation & Packaging Management"	Final sodium disposition evaluation report (Due: TBD)  Hanford Site Sodium Project Management Plan (Due: TBD)  Deliverables for FFTF beyond 31 December 2003 are TBD	None Identified
<b>Decommission FFTF Complex</b> Upon direction, decommission the FFTF complex in accordance with approved Environmental documentation. At the point where all systems and spaces at the facility achieve their respective end state condition, disposition is achieved and the DOE will verify the end state.	The Contractor shall disposition the assigned FFTF buildings and structures in compliance with regulator and DOE decisions.  Prepare analysis, including development of alternative descriptions and waste plans, as may be useful to either prepare appropriate NEPA or CERCLA documentation for decommissioning the FFTF.	Facilities dispositioned as identified in table below.  Draft document to include environmental and cost analyses and alternative descriptions to be used in preparing appropriate NEPA or CERCLA documentation for decommissioning the FFTF. Due: 30 September 2003  Deliverables for FFTF beyond 31 December 2003 are TBD	Obtain approval of appropriate NEPA or CERCLA documents for decommissioning assigned 400 Area facilities.

### C.2.4.2 Balance of 400 Area Facilities Cleanup

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GH
<b>Disposition balance of 400 Area Facilities</b> Perform the facility assessment and submit for the lead regulating agency and DOE decision. Perform transition activities (e.g., Flush, isolate and blank process or sub-process systems; remove radioactive and hazardous materials and mixed wastes; deactivate non-essential systems and utilities; remove excess materials and equipment). Achieve the final end state for the facility (e.g., entombment or dismantlement and site restoration) including closure of any TSDs. At the point where all systems and spaces at the facility achieve their respective end state condition, disposition is achieved and the DOE will verify the end state.	The Contractor shall disposition the assigned 400 Area buildings and structures in compliance with regulator and DOE decisions.	Facilities transitioned and dispositioned as identified in table below.	Obtain approval of CERCLA EE/CA and Action Memorandum for dismantlement of assigned 400 Area Facilities within 60 days of submittal

6607-9	6607-9, Septic Tank 6607-9 Large On-Site Sewage System, Project W-011H		• Complete Remedial Action
OCSA	OCSA, Old Central Shop Area, Central Shop Area		• Complete Remedial Action
UPR-200-N-1	UPR-200-N-1, Unplanned Release at the 212-R railroad spur		• Complete Remedial Action
UPR-200-N-2	UPR-200-N-2, 200-N-2, Unplanned Release near Well Pumphouse No. 2, Well Pumphouse East of 212-R		• Complete Remedial Action
UPR-600-12	UPR-600-12, UN-600-12, UNH Spill to Route 4S		• Complete Remedial Action
UPR-600-21	UPR-600-21, Contamination found Northeast of 200 East Area, UN-616-E-31		• Complete Remedial Action

### C.2.5.3 600 Area Surveillance and Maintenance

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
Provide Surveillance and Maintenance on 600 Area Facilities after Shutdown Maintain assigned waste sites, facilities, structures, operating systems and equipment, and monitoring systems until the facilities are dispositioned. Maintain radiological control and access control to the surplus facilities to ensure personnel safety.	The Contractor shall perform surveillance and maintenance on the assigned 600 Area buildings, structures, and waste sites.	None Identified	None Identified

### C.2.6 Groundwater Protection

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
Manage and Integrate Hanford Site Groundwater Protection Manage and integrate the Hanford Groundwater Protection efforts by all site contractors, including groundwater monitoring and investigations (characterization, assessment, and technology needs) to identify and implement groundwater remedial alternatives, protective measures, and closure.	The Contractor shall manage and integrate site groundwater science and technology requirements, groundwater assessments, groundwater migration modeling, and annual review/summary of 200 Area Performance Assessments. Comply with the Disposal Authorization Statement.  The Contractor shall manage and integrate human health and ecological assessments and other modeling studies to determine impacts	Complete Site-Wide Well Management Plan including assignment of all monitoring wells to the Contractor. Due: 30 September 2003  Vadose Zone Monitoring Study, Interim Report Due: 5 June 2003  Vadose Zone Monitoring	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	to the regional ecology of Hanford's past and present operations as well as impacts of any specific groundwater cleanup, operational, or closure actions.	Study, Final Report Due: 31 October 2003	
<b>Prevent Further Degradation</b> Limit and control the migration of contaminants already in the soil and groundwater by reducing natural and artificial recharge.	The Contractor shall initiate actions to eliminate sources of water infiltration contributing to migration of contaminants in the Hanford Site Vadose zone.  The Contractor shall eliminate inadvertent discharge by U Plant Area water lines.  <b>Post Contract Period:</b> Remaining recharge conditions that contribute to migration of groundwater contamination shall be eliminated.	Eliminated discharge to U-Plant septic system (2607-W5). Due: 30 September 2004  Activities (TBD) derived from the Hanford Groundwater Plan: Accelerated Cleanup and Protection, 2002.  Decommissioned high-risk, non-compliant wells. Due: 30 September 2006  200 Area Waste Sites Berm Construction. Due: 30 September 2004	Decisions, requirements and approvals for constructing surface barriers. Due: 30 September 2003
<b>Monitor Groundwater</b> Manage and integrate the site-wide groundwater monitoring program conducted by the groundwater monitoring contractor (PNNL). Prepare DQOs, sampling and analysis plans, waste management plans and other regulatory documentation as needed for existing groundwater operable units where active groundwater remediation is occurring. Perform activities required to maintain or refurbish the wells used to monitor the groundwater in the vicinity of facilities and contaminant sources that could potentially impact groundwater.	The Contractor shall provide technical planning and reporting for groundwater long term monitoring and CERCLA monitoring, and purge water truck support.  The Contractor shall operate the Modutanks for disposal of extracted groundwater from site well sampling and maintenance activities, and associated groundwater characterization and remediation tasks.  The Contractor shall submit and obtain approval of regulatory documents to support Modutank closure activities.  The Contractor shall upgrade the Effluent Treatment Facilities to accept purge water.	Modutank closure in FY 2004.  M-24-00N: Install RCRA groundwater monitoring wells at the rate of up to 50 (if required). Due: 31 December 2002  M-24-00O: Install RCRA groundwater monitoring wells at the rate of up to 50 (if required). Due: 31 December 2003  M-24-00P: Install RCRA groundwater monitoring wells at the rate of up to 50 (if required). Due: 31 December 2004  M-24-00Q: Install RCRA groundwater monitoring wells at the rate of up to 50 (if required). Due: 31 December 2005  M-24-56: Two additional wells installed at SST waste management area TX-TY; location 1: well installed down gradient (perimeter) between well 299-W 14-6 and 299-W 14-14, location 2: well installed approximately 180 ft south of well W-15-22. Due: 31 December 2002	Approve Modutank regulatory documents within 30 days of submittal.
<b>Remediate Hanford Site Groundwater</b> Implement groundwater remediation actions resulting from interim and final Records of Decision and Action Memorandum.	The Contractor shall implement groundwater remedial actions in accordance with approved records of decision (e.g., pump and treat).  <b>This work scope shall be done in compliance with:</b> • 200-ZP-1 Interim Action Declaration of the ROD • Action Memorandum: Expedited Response Proposal for 200 West Carbon Tetrachloride Plume	Activities (TBD) derived from the Hanford Groundwater Plan: Accelerated Cleanup and Protection, 2002.  Complete 100-H Area pump and treat operations. Due: 30 September 2006  Complete UP-1, 200 Area	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	<ul style="list-style-type: none"> <li>Interim Action ROD for the 200-UP-1 Operable Unit</li> <li>Interim Action ROD for the DOE Hanford 100-FR-3 and 100-KR-4 Operable Units</li> <li>Interim Action ROD for the DOE Hanford 100-NR-1 and 100-NR-2 Operable Units</li> </ul>	<p>pump and treat operations. Due: 30 September 2006</p> <p>Complete baseline efforts for delineation of DNAPL sources associated with the Carbon Tetrachloride plume in 200 West (ZP-1). Due: 30 September 2004</p> <p>Prepare EPA CERCLA 5 year review for all active and no action groundwater operable units. Due: 30 May 2005</p> <p>Complete RI/FS proposed plans for UP-1. Due: 30 May 2005</p> <p>M-16-27C: Completed 100-FR-3 PHASE III, ISRM barrier emplacement, planning, well installation, and barrier emplacement. Due: 30 June 2003</p> <p>M-16-28A: Connection well 199-K-126 to the 100-KR-4 pump and treat extraction system. Due: 15 January 2003</p>

## C.3 Waste and SNF Management Operations

### C.3.1 Canister Storage Building (CSB)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<p><b>Consolidate Site-Wide Spent Nuclear Fuel for Interim Storage</b> Manage and coordinate the movement of all Hanford SNF for interim storage in the 200 Area.</p>	<p>The Contractor shall prepare all of the Hanford Site SNF, as defined in Hanford Spent Fuel Inventory Baseline, WHC-SD-SNF-TI-001, (except irradiated fuel material classified otherwise by formal direction from RL) for interim onsite storage.</p> <p>Non-Defense Production Reactor Spent Fuel shall be consolidated and stored in the Central Plateau.</p> <p>The Contractor shall store non-defense production reactor spent fuels NRF TRIGA fuel from the 400 Area in the 200 Interim Storage Area.</p> <p>Non-defense production reactor spent fuels from FFTF shall be stored in the 200 Interim Storage Area.</p> <p>RINM removed from the 200 West Area Low Level Burial Grounds shall be stored in the 200 Interim Storage Area.</p> <p><b>This work scope shall be done in compliance with:</b></p> <ul style="list-style-type: none"> <li>• CRDM 474.1-1, "Manual for Control and Accountability of Nuclear Materials"</li> <li>• CRDO 460.2, Chg 1, "Departmental Materials Transportation &amp; Packaging Management"</li> <li>• SNF-4894, "Spent Nuclear Fuel Project Acceptance Criteria for LWR Spent Fuel Storage System"</li> <li>• WHC-SD-SNF-TI-001, "Hanford Spent Fuel Inventory Baseline"</li> </ul>	None Identified	None Identified
<p><b>Maintain Safe &amp; Compliant CSB Operations</b> Operate and maintain the Canister Storage Building within the authorization envelope. Sufficient technical and operational personnel shall be provided and trained to perform operational and maintenance activities and to maintain baseline documentation. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.</p>	<p>The Contractor shall facilitate safe and cost effective installation of facility modifications necessary for receipt and storage of HLW.</p> <p><b>Post-Contract Period:</b> The CSB shall perform operational and maintenance activities required to support handling and storage of HLW.</p> <p>The CSB shall perform operational activities required to support the preparation and packaging of the MCOs and HLW canisters for transportation to the Monitored Geologic Repository (MGR) for their ultimate disposition.</p> <p><b>This work scope shall be done in compliance with:</b></p> <ul style="list-style-type: none"> <li>• 61 FR 10736, March 15, 1996, Doc. 96-629.</li> <li>• CFR 470.1, Chg 1 (Supp Rev 1), "Safeguards and Security Program Requirements"</li> <li>• DOE/EA-1185, "Management of Hanford Site Non-Defense Production Reactor Spent Fuel"</li> </ul>	Spent Nuclear Fuel Project Update to Final Safety Analysis Report (SAR) Including Hazard Analysis Data (Annual)	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GES/GFI
	• HNF-5, 56, "Spent Nuclear Fuel Project Authorization Agreement"		
<b>Modify CSB to Receive IHLW For Storage</b> Receive immobilized high-level waste (HLW) from the Waste Treatment Plant for interim storage.  Specifically Excluded Scope: Costs associated with the design, installation, acceptance, and project management of modifications to the CSB necessary for receipt of HLW are presently not included within the CSB operational baseline.	The CSB shall be modified to receive, inspect, place into interim storage, and monitor HLW. CSB staff shall ensure that all modifications are accomplished within DOE guidance and direction provided for operation of a Hazard Category 2 Nuclear Facility.	Modified CSB in sufficient time to support WTP operation milestones (Due: TBD)	None Identified
<b>Receive Shippingport SNF</b> Receive Shippingport SNF transferred from storage at T-Plant.	Shippingport Pressurized Water Reactor Core 2 Spent Nuclear Fuel shall be consolidated and interim stored in the Central Plateau.  This work scope shall be done in compliance with: • CRD O 460.2, Chg 1, "Departmental Materials Transportation & Packaging Management" • SNF-7199, "Shippingport PWR Core 2 Blanket Fuel Assemblies Acceptance Criteria"	Shippingport fuel stored in CSB (DUE: TBD)	None Identified
<b>Receive Defense Production Reactor Spent Nuclear Fuel</b> Receive MCOs containing K Basin SNF.	The CSB operations shall receive, inspect, weld, and place into storage multi-canister over packs (MCO) containing K Basin SNF.  This work scope shall be done in compliance with: • CRD O 460.2, Chg 1, "Departmental Materials Transportation & Packaging Management" • HNF-5356, "Spent Nuclear Fuel Project Authorization Agreement" • HNF-SD-SNF-OCD-001, Rev. 6, "Spent Nuclear Fuel Project Product Specification"	SNF dried and stored at CSB Due: 30 October 2005	None Identified
<b>Store and Monitor SNF and IHLW</b> Monitor and ensure safe interim storage of SNF and IHLW until all stored materials are appropriately dispositioned.		None Identified	None Identified
<b>Disposition IHLW</b> Prepare and load out stored IHLW for transport by others to the national repository for final disposition.	<b>Post Contract Period:</b> The Contractor shall establish interface controls for transport of IHLW canisters to the repository. Retrieve IHLW canisters from the CSB storage tubes, package and load on transport vehicle, and transport waste package in accordance with established interface controls.  This work scope shall be done in compliance with: • DOE/RW-0351 Rev 3, "Waste Acceptance System Requirements Document, E000000030-00811-1708-0001 REV 03"	None Identified	None Identified
<b>Disposition SNF Stored in the CSB</b> Prepare and load out stored SNF for transport by others to the national repository for final disposition.	<b>Post Contract Period:</b> The Contractor shall establish interface controls for transport of SNF canisters to the repository.  This work scope shall be done in compliance with: • CRD O 460.2, Chg 1, "Departmental Materials Transportation & Packaging Management" • DOE/RW-0351 Rev 3, "Waste Acceptance System Requirements Document,	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	CRS/GFI
	E00000000-00811-1708-0001 REV 03"		
<b>Maintain Safe &amp; Compliant 200 Area ISA Facility Operations</b> Operate and maintain the 200 Area ISA within the authorization envelope. Sufficient technical and operational personnel shall be provided and trained to perform operational and maintenance activities and to maintain baseline documentation. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	This work scope shall be done in compliance with: • 61 FR 10736, March 15, 1996, Doc. 96-629. • HNF-5356, "Spent Nuclear Fuel Project Authorization Agreement"	None Identified	None Identified
<b>Disposition SNF Stored in the 200 Area ISA</b> Prepare, stage, load out, and transport site-wide SNF stored at the 200 Area ISA to final disposition.	Na bonded FFTF Spent Nuclear Fuel shall be shipped to Argonne West (Idaho). This fuel shall be removed from the 200 ISA, and moved into the CSB where it will be transferred into transportation casks prior to shipment to Idaho.  <b>Post Contract Period:</b> Materials stored at the 200 ISA shall be either directly transferred to disposition or relocated to a temporary location for packaging prior to shipment for final disposition.  <b>This work scope shall be done in compliance with:</b> • CRD O 460.2, Chg 1, "Departmental Materials Transportation & Packaging Management"	None Identified	None Identified

### C.3.2 Central Waste Complex (CWC)

SCOPE	REQUIREMENT(S)	DELIVERABLES	CRS/GFI
<b>Maintain Safe &amp; Compliant Central Waste Complex Facility Operations</b> Operate and maintain the Central Waste Complex structures, operating systems and equipment, and monitoring systems within the authorization envelope. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	The Central Waste Complex shall remain a contamination free facility.	Authorization Agreement for CWC and LLEG (review and update yearly)	None Identified
<b>Receive and Store Radioactive Solid Wastes</b> Store existing quantities of low-level waste, mixed low-level waste, and TRU waste, including retrieved suspect TRU waste. Receive and store newly generated waste from Hanford Site generators and from off site generators approved by RL.	Low-level and mixed low-level waste that does not meet the Hanford Site Solid Waste Acceptance Criteria, HNF-EP-0063, for disposal shall be stored at the CWC.  Newly generated waste shall be confirmed to be in compliance with the Hanford Site Solid Waste Acceptance Criteria, HNF-EP-0063.  Mixed waste shall be treated each year to meet LDR criteria.  Store newly generated transuranic waste after WIPP closes until a determination is made on disposition of transuranic waste after WIPP closure.	None Identified	None Identified

### C.3.3 Waste Receiving and Processing Facility (WRAP)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GRS/GEI
<b>Maintain Safe &amp; Compliant WRAP Facility Operations</b> Operate and maintain the WRAP structures, operating systems and equipment, and monitoring systems within the authorization envelope. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	This work scope shall be done in compliance with: • 03-ABO-0022, "The Waste Receiving and Processing (WRAP) Facility Authorization Agreement (AA)"	Authorization Agreement for WRAP (review and update yearly)	None Identified
<b>Perform WRAP TRU Processing</b> Process CH TRU/TRUM waste received in drums and standard waste boxes for disposal at WIPP. Perform NDE/NDA and visual inspection. As necessary, repack low-level waste (LLW), mixed low-level waste (MLLW), transuranic waste (TRU), and TRU mixed waste (TRUM). Verify LLW and send to the burial grounds for disposal. Segregate MLLW and send to storage, treatment, or disposal, as appropriate. Verify/certify TRU and TRUM waste for shipment to the Waste Isolation Pilot Project (WIPP).	Contact Handled TRU in drums shall be certified (and processed as needed) to meet WIPP requirements.  Contact Handled TRU in standard waste boxes shall be certified (and processed as needed) to meet WIPP requirements.  This work scope shall be done in compliance with: • DOE/WIPP-02-3122, Rev. 0.1, "Contact-Handled Transuranic Waste Acceptance Criteria for the Waste Isolation Pilot Plant"	None Identified	None Identified
<b>Disposition Transuranic Waste from WRAP Processing to WIPP</b> Load TRU waste packages into appropriate transport containers for shipment to WIPP.	TRU waste that has been processed shall be shipped to WIPP.  TRU shipments shall be complete upon departure of the TRUPACTs from the Hanford Site.  TRU waste shall be transported to WIPP in containers certified by the Nuclear Regulatory Commission, as required by the WIPP Land Withdrawal Act.  This work scope shall be done in compliance with: • DOE/WIPP-02-3122, Rev. 0.1, "Contact-Handled Transuranic Waste Acceptance Criteria for the Waste Isolation Pilot Plant"	All above ground legacy TRU waste shipped to WIPP <b>Due: 30 June 2005</b>  1,000 cubic meters newly generated TRU waste shipped to WIPP <b>Due: 30 September 2006</b>	TRUPACT shipping casks, trailers, drivers, TRUPACT spare parts to perform up to 250 shipments per year by 2005.  Accelerated CBFO waste stream certification processes.  Provide Accelerated Process Line (APL) equipment, personnel, and funding for WIPP certification and shipment to include: 2 drum nondestructive examination (NDE) units, 2 drum nondestructive assay (NDA) units, 2 headspace gas sampling and analysis units, 2 drum repackaging gloveboxes, and 1 mobile TRUPACT loadout station. <b>Due: 1 January 2004</b>  Provide Accelerated Process Line (APL) equipment for WIPP certification and shipment: 1 box nondestructive examination (NDE) units, 1 box nondestructive assay (NDA) unit, and 1 box repackaging glovebox. <b>Due: 1 July 2004</b>  Certified WIPP Solids Sampling program. <b>Due: 30 June 2004</b>  Approve MDSA/Safety analysis within 60 days of submittal.  Approval to ship TRU Waste through the State of Oregon

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
			<p>during winter months (December through March). Due: 30 September 2003</p> <p>Approve the Environmental Assessment for the Carlsbad APL within 60 days of submittal.</p> <p>Approve WRAP LLW glovebox conversion safety analysis within 60 days of submittal.</p> <p>Certification audit priority from CBFO.</p>

### C.3.4 T-Plant

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
<p><b>Operate and Maintain the T-Plant Facility</b> Operate and maintain the T Plant structures, operating systems and equipment, and monitoring systems within the authorization envelope.</p> <p>Maintain T Plant Complex capabilities to support Hanford decontamination needs, waste storage, repackaging and verification, TRU characterization (headspace gas sampling), and waste treatment activities.</p>	<p>Preparations to provide M-91 treatment capabilities at T Plant shall be initiated, including clearing stored equipment from the canyon deck.</p> <p>Oversized packages requiring special processing shall be processed.</p> <p>TRU waste processed at T Plant shall be shipped to WIPP.</p> <p><b>This work scope shall be done in compliance with:</b></p> <ul style="list-style-type: none"> <li>• DOE/WIPP-02-3122, Rev. 0.1, "Contact-Handled Transuranic Waste Acceptance Criteria for the Waste Isolation Pilot Plant"</li> <li>• 02-AED-0139, "Approval of the T Plant Authorization Agreement (AA) Annual Update"</li> </ul>	Authorization Agreement for T Plant (review and update yearly)	None Identified
<p><b>Remove Shippingport Fuel from T Plant</b> Retrieve, package, and ship Shippingport Reactor Fuel from T Plant to the Canister Storage Building.</p>	<p>Pending transfer to the Canister Storage Building, Shippingport Pressurized Water Reactor Core 2 Spent Nuclear Fuel shall be stored at T Plant.</p> <p>Spent fuels from the T-Plant shall be consolidated in the 200 Area for interim storage pending national decisions on their ultimate disposition.</p> <p>The Contractor shall operate fuel removal systems to remove Shippingport Fuel from T-Plant pool cell.</p>	None Identified	None Identified
<p><b>Receive and Store SNF Sludge</b> Receive sludge from K-Basins and store as TRU waste. Provide dry storage for floor and pit sludge from the K-Basins. Provide wet storage for containerized sludge. Retrieve and package the sludge from storage, as necessary, for transfer to treatment when treatment is made available.</p>	The Contractor shall modify T Plant to receive and store canister and fuel wash sludge from K Basins.	<p>T Plant ready to receive the first canister of K Basin floor pit sludge (M-091-20) Due: 31 December 2002</p> <p>T Plant ready to receive canister and fuel wash sludge from the K Basins (M-091-22) Due: 29 February 2004</p>	Approve safety analyses for storage of dry and wet sludge at T Plant within 42 days of submittal.

### C.3.5 Reserved

### C.3.6 Liquid Effluent Retention Facility (LERF)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Maintain Safe &amp; Compliant Liquid Effluent Retention Facility Operations</b> Operate and maintain the Liquid Effluent Retention Facility (LERF) structures, operating systems and equipment, and monitoring systems in compliance with applicable directives and regulatory documents. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.		None Identified	None Identified
<b>Store Liquid Effluents in the LERF</b> Collect and store liquid effluents in the LERF for subsequent treatment in the ETF.		None Identified	None Identified

### C.3.7 200 Area Effluent Treatment Facility (ETF)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Maintain Safe &amp; Compliant 200 Area Effluent Treatment Facility Operations</b> Operate and maintain the 200 Area Effluent Treatment Facility (ETF) structures, operating systems and equipment, and monitoring systems in compliance with applicable directives and regulatory documents. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	The Contractor shall prepare for submittal to the US Environmental Protection Agency and the Washington Department of Ecology an evaluation of the development status of tritium treatment technology that would be pertinent to the cleanup and management of tritiated wastewater.	M-26-05J: Evaluation of development status of tritium treatment technology that would be pertinent to the cleanup and management of tritiated waste water <b>Due: 31 August 2003</b>  M-26-05L: Evaluation of development status of tritium treatment technology that would be pertinent to the cleanup and management of tritiated waste water <b>Due: 31 August 2005</b>	None Identified
<b>Treat Liquid Effluents in the ETF</b> Treat liquid effluents in the ETF by removing or destroying contaminants sufficient to meet discharge requirements.	The Contractor shall operate the ETF to support groundwater pump and treat operations.	None Identified	None Identified
<b>Dispose of Liquid Effluents Treated by the ETF</b> Dispose liquid effluents treated by the ETF that meet discharge requirements to the 200 West Area SALDS. Provide holdup of treated effluent in storage tanks to allow verification that the effluent has been treated to acceptable levels prior to discharge.	Constituents not identified in the permit are subject to the limits in WAC 173-200, Water Quality Standards for Ground Waters of the State of Washington, and 4 percent of the derived concentration guide values in DOE Order 5400.5, Radiation Protection of the Public and Environment, as applicable.	None Identified	None Identified

### C.3.8 200 Area Treated Effluent Disposal Facility (TEDF)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Maintain Safe &amp; Compliant 200 Area TEDF Operations</b> Operate and maintain the 200 Area TEDF structures, operating systems and equipment, and monitoring systems in compliance with		None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
applicable directives and regulatory documents. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.			
Receive Liquid Effluents in the 200 Area TEDF Collect and dispose liquid effluents that meet discharge requirements for the 200 Area State Approved Land Disposal Site, from generators in the 200 Areas.	The 200 TEDF shall be operated to meet 200 Area radiological industrial wastewater disposal needs.	None Identified	None Identified

### C.3.9 300 Area Treated Effluent Disposal Facility (TEDF)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
Maintain Safe & Compliant 300 Area TEDF Operations Operate and maintain the 300 Area TEDF, structures, operating systems and equipment, and monitoring systems in compliance with applicable directives and regulatory documents. Prepare and package waste streams for disposition as required and dispose as appropriate. Maintain radiological control and access control to ensure personnel safety.	The 300 TEDF shall be maintained as a non-radiological facility.	Submittal of Department of Natural Resources Land Lease Monitoring Report (Monthly)	None Identified
Treat and Dispose Liquid Effluents in the 300 Area TEDF Treat liquid effluents in the 300 Area TEDF by removing or destroying contaminants sufficient to meet discharge requirements, and dispose treated waste water to the Columbia River.	Liquid effluent from the 300 Area shall be collected, treated and disposed at the 300 Area TEDF.	None Identified	None Identified

### C.3.10 Low-Level Waste Burial Grounds (LLBG)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
Maintain Safe & Compliant LLW Burial Ground Operations Operate and maintain the LLW Burial Grounds within the authorization envelope.	Reactor Irradiated Nuclear Material (RINM) in the 200 West Area Low-Level Burial Grounds (LLBG) shall be managed as transuranic waste.  Post 1970 suspect TRU waste containers in the LLBG shall be managed in retrievable storage in the LLBG.  Baseline forecasted volume (SWIFT Report 2002.1) of DOE titled Low-Level Waste shall be disposed.  Disposal of Greater than Category 3 Low-Level Waste shall be evaluated on a case-by-case basis.  This work scope shall be done in compliance with: • 02-ABD-020, "Approval of the Central Waste Complex (CWC) and Low Level Burial Ground (LLBG) Authorization Agreement Annual Updates"	None Identified	None Identified
Remove RINM from LLBG Procure, install, and operate systems and	Post Contract Period: Drums of suspect RINM shall be retrieved	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	EIS/GFI
Equipment to retrieve RINM from the LLBG to prepare for transfer to the 200 Area Interim Storage Area.	from the LLBG.		
<b>Retrieve Suspect TRU from LLBG</b> Retrieve suspect post-1970 TRU containers from retrievable storage in the LLBG.	The Contractor shall retrieve suspect TRU from locations with the highest Pu concentration.  The Contractor shall prepare a Buried TRU Waste Disposition Plan following the "Hanford Federal Facility Agreement and Consent Order" (TPA) provisions for RCRA/CERCLA integration and coordination.  Retrieved TRU drums or boxes shall be removed from the stack, and designated as TRU, LLW, or MLLW. Drums and boxes shall be permanently disposed or stored, as process capabilities allow.	Disposition suspect TRU waste (~3040 m <sup>3</sup> ) retrieved from locations with highest Pu concentrations. <b>Due: 30 September 2006</b>  Buried TRU Waste Disposition Plan <b>Due: 1 December 2003</b>  Specific tasks derived from the Buried TRU Waste Disposition Plan (Due: TBD)	Approve Solid Waste Security Plan for any security interest exhumed from low-level burial grounds within 30 days of submittal.  Approve TRU retrieval safety analysis within 60 days of submittal.  Approve key decision documents. <b>Due: 15 March 2003</b>

### C.3.11 Mixed Waste Disposal Trenches (MWDT)

SCOPE	REQUIREMENT(S)	DELIVERABLES	EIS/GFI
<b>Maintain Safe &amp; Compliant Mixed Waste Disposal Trench Operations</b> Operate and maintain the mixed waste disposal trenches in compliance with applicable directives and regulatory documents.	Baseline forecasted volume (SWIFT Report 2002.1) of DOE titled mixed waste shall be disposed.  All newly generated mixed low-level waste shall be disposed within one year of treatment.  <b>This work scope shall be done in compliance with:</b> - 61 FR --1996, August 9, 1996, Doc. 96-2023"	Stored mixed waste treated and/or disposed. <b>Due: 30 September 2006</b>  Mixed Waste newly generated through 30 March 2006 treated and/or disposed <b>Due: 30 September 2006</b>  Actions (TBD) derived from the Solid Waste EIS (Due: TBD)	Authorize disposal of some of the MLLW off the Hanford Site (e.g., Envirocare). <b>Due: 31 December 2002</b>  Approve the 200 ETF Delisting Modification Petition for acceptance of unrestricted F039 multi-source leachate for Hanford's RCRA Subtitle-C disposal units. <b>Due: 31 January 2003</b>  Approve disposal of the 183-H Basin waste in ERDF. <b>Due: 31 March 2003</b>  Authorize MLLW shipment off the Hanford Site utilizing the existing waste characterization/process knowledge for RCRA and DOT requirements. <b>Due: 31 July 2003</b>  Approve Hanford Solid Waste EIS (Issue Record of Decision) <b>Due: 31 July 2003</b>  Authorize in-trench RCRA treatment, including alternative treatment of MLLW <b>Due: 1 September 2003</b>  Approve the Master Documented Safety Analysis (MDSA/Safety Analysis) within 60 days of submittal.  Enforce non-contractor generators to deliver LDR.

Fluor Hanford, Inc.  
DE-AC06-96RL13200  
Modification M185

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/CH
			compliant waste. The Contractor controls waste scheduling for all waste types.

## C.4 Infrastructure and Hanford Site Services

### C.4.1 Infrastructure Key Areas Beyond FY 2006

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GRI
<p><b>Infrastructure Key Areas Beyond FY 2006</b> The Contractor shall identify facilities, equipment, and systems currently evaluated by CAS and valued at greater than \$25,000 required for cleanup in 2012, and keep those assigned to the Contractor in a minimally acceptable condition at the end of fiscal year (FY) 2006. The Contractor shall institute a condition-based maintenance, major repair, and replacement program to achieve the minimum acceptable condition through FY 2006. The scope is generally the facilities, equipment, and systems for the following key areas:</p> <ul style="list-style-type: none"> <li>Utilities <ul style="list-style-type: none"> <li>Electrical</li> <li>Water</li> <li>Sewer and Septic</li> </ul> </li> <li>Roads &amp; Grounds <ul style="list-style-type: none"> <li>Roads</li> <li>Grounds</li> </ul> </li> <li>Major Equipment <ul style="list-style-type: none"> <li>Cranes</li> <li>Heavy Equipment</li> </ul> </li> </ul> <p>The Contractor shall determine the current assigned Contractor assets valued at greater than \$25,000 not needed to support cleanup in 2012 and decommission/abandon them and determine which assets can be removed from service as cleanup events are accomplished to reduce the active infrastructure and related costs. The Contractor shall institute a maintenance program that allows "run to failure" without compromising safety, health, environmental compliance, and cleanup milestones.</p> <p>The condition of nuclear facilities that provide site services such as analytical laboratories and waste management will be maintained and assessed in accordance with the authorization basis process.</p>	<p>The Contractor shall develop and maintain a list of Contractor assigned assets valued at greater than \$25,000 required in 2012 to support cleanup.</p> <p>The Contractor shall use a Contractor-wide rating system to annually assess the condition of 25% of the facilities and personal property assets. This system shall contain these categories:</p> <ul style="list-style-type: none"> <li>Excellent (1) - New or lightly used that can be used without repairs,</li> <li>Usable (4) - Shows some wear, but can be used with normal maintenance,</li> <li>Minor Repairs (5) - Facilities/Systems: Up to 25% of replacement value, Equipment: Up to 10% of replacement value. These repairs will normally be accomplished routinely,</li> <li>Major Repairs (7) - Facilities/Systems: 26-60% of replacement value, Equipment: 11-40% of replacement value,</li> <li>Replace (X) - Required for cleanup, but repair or rehabilitation is impractical and/or uneconomical, requiring replacement, and</li> <li>Disposition (D) - Not required for cleanup.</li> </ul> <p>The Contractor shall use an evaluation system based on the Condition Assessment Survey (CAS) approach to determine asset condition, needed major repairs or replacement, and for follow-on assessments to determine change in condition. The CAS approach focused on assets needed for cleanup in 2012 and the definitions above shall be used to provide periodic evaluations of the condition of facilities, equipment, and systems. The following shall be used as criteria for the minimum acceptable asset condition for those assets at the end of FY 2006: (A) Meets intended purposes, including safety, health, environmental compliance and mission needs. (B) A majority of elements with evaluation ratings in Category (1) - Excellent, Category (4) - Usable, and Category (5) - Minor Repairs. (C) For elements rated Category (7) - Major Repairs and Category (X) - Replace, a planned repair/replacement cycle to meet intended purposes, over multiple fiscal years. (D) For elements rated Category (D) - Disposition not required for cleanup.</p>	<p>List of Contractor assigned assets valued at greater than \$25,000 required in 2012 to support cleanup Due: 30 March 2003</p> <p>Infrastructure Ratings for Key Areas (Semi-Annual)</p>	None Identified

## C.4.2 Hanford Site Services

The Contractor shall provide the following services that will be used by all site contractors. The Contractor shall provide the requisite managerial ability and technical expertise to integrate contractor services that support the site mission requirements. The Contractor shall participate on the Site Services Board and the Site Financial Board.

SCOPE	REQUIREMENT(S)	DELIVERABLES	GES/GFI
<b>Analytical Sample Analysis</b> Provide a full range of organic, inorganic, and radiochemical analytical capabilities. Analyze highly radioactive samples at the 222-S Laboratory in support of tank waste characterization, retrieval, and pretreatment, and other site projects. Support all major site programs and projects at the Waste Sampling and Characterization Facility (WSCF) with the analysis of process control accredited environmental and accredited industrial hygiene, environmental, and industrial hygiene samples with low radioactivity levels. Operate and maintain the 222-S Laboratory and WSCF in compliance with applicable directives and regulatory documents.	The Contractor shall maintain laboratory accreditation for on-site labs, including those providing mobile in-field analytical services.  The Contractor shall provide a full range of organic, inorganic, and radiochemical analytical capabilities.	None Identified	None Identified
<b>Asset Disposition (Investment Recovery Operations)</b> Provide receipt and disposition services for personal property assets no longer required in support of the Hanford Site mission. Provide processes and support services for DOE mandated donations/transfers (i.e., School Gift Program, Energy Related Lab Equipment Program, Economic Development, etc.)	The Contractor shall provide receipt and disposition services for personal property assets no longer required in support of the Hanford Site Mission.  The Contractor shall support asset transfers from the Site to potential customers via the Tri-Cities Asset Reinvestment Corporation (TARC)	Personal Property Furnished to Non-Federal Recipients Report (Annual)  Quarterly Report of Personal Property Sales  Utilization and Disposal of Excess & Surplus Personal Property Report (Annual)	None Identified
<b>Badging</b> Process and account for permanent security badges and the Hanford Site temporary (self-expiring) security badge program for employees, contractors, visitors, vendors and others for access to Site contractors and facilities. Issue badges for foreign nationals and verify security clearance levels for cleared visitors from other DOE sites. Manage the DOE and Hanford Site badging system - Personnel Security Clearance Reports Plus (PSCR+).	The Contractor shall manage the DOE and Hanford Site badging system - PSCR+.	None Identified	None Identified
<b>Biological Control Program</b> Provide a site-wide biological control program that is systematically integrated with environmental, safety, health and quality principles across the Contractor Projects, and with other Hanford Prime Contractors. This includes the control of noxious weeds, industrial weeds, other vegetation, and animal pests for the purposes of protecting employees, the public, and Site cultural and environmental (including biological) resources.	The Contractor shall provide a site-wide biological control program to control noxious weeds, industrial weeds, other vegetation, and animal pests.	None Identified	None Identified
<b>Calibration Services</b> Provide for the calibration of non-radiological Measuring and Test Equipment (M&TE) that requires calibration to meet quality, safety or compliance requirements. Provide In Situ calibration services. Does not include the calibration of Radio Services.	The Contractor shall provide for the calibration of non-radiological Measuring and Test Equipment (M&TE).	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GIT
instruments that are used to "tune" radio controllers, and occupational radiation instruments and repair.			
<b>Centralized Consolidated Recycling Center (CCRC)</b> Operate and maintain the CCRC. The following materials are aggregated for recycling at CCRC: aerosol products; mercury and mercury containing equipment; universal waste lamps and batteries; crushed fluorescent lamps; lead-acid batteries; electric ballasts or capacitors; used shop towels, used oil, and spent antifreeze.  Minimize hazardous waste disposal through reuse of chemicals and/or recycling performed by off site vendors.		None Identified	None Identified
<b>Classified Document Management</b> Provide document control and management services for active and inactive classified material generated or received by DOE and Hanford contractors. Includes receiving classified matter, assigning control numbers, maintaining the classified document tracking system, copy distribution, record copy retention and retrieval, providing pickup and delivery service, destruction, and conducting inventories.	The Contractor shall provide document control and management services for active and inactive classified material generated or received by DOE and Hanford contractors	None Identified	None Identified
<b>Courier Services</b> Provide support for priority/emergency documents and materials including, but not limited to, payroll, cost accounting and accounts payable data. Provide support to the medical aid stations in transporting serum blood samples, medical supplies and x-rays, pickup and delivery of instruments being calibrated, transport of new and used office machines as well as machines to and from repair facilities, and pickup and shredding of classified documents.	The Contractor shall provide pickup, delivery and destruction support for priority/emergency documents and materials.	None Identified	None Identified
<b>Crane and Rigging</b> Provide management, administrative, and planning and scheduling support for movable cranes and Crane and Rigging Services operations. Coordinate rental and movement of cranes ranging from 9 to 250 ton capacity. Support preventive maintenance inspections and schedule necessary repairs. Provide technical support and guidance in the procurement of hoisting and rigging equipment. Perform critical lift planning (develop alternative and innovative methods for lifting and scaffolding tasks). Supervise crane crews, riggers (performing complex rigging, ironwork, and scaffold erection and dismantling), crane operators, and drivers (performing heavy hauling and forklift operations).	The Contractor shall provide: Operations of movable cranes; Critical lift planning; Complex rigging, ironwork, and scaffold erection and dismantling; and Heavy hauling and forklift operations.	None Identified	None Identified
<b>Desktop Services</b> Provide a single point of contact for technical support for software and hardware via e-mail, web, or telephone. Provide dispatch for problems that cannot be resolved by help desk staff. Provide for computer maintenance, software, computer network, business machine repair, computer support, redeployment of computer hardware, integration, desk side software support, PC procurement support, PC and related	The Contractor shall provide technical support for PC software and hardware.	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GRI
peripheral maintenance, moves/adds/changes, installation of new standard and nationalized PCs and related peripherals and related services.			
Emergency Preparedness - Support the Occurrence Reporting process.		None Identified	None Identified
Engineering Drawing Management Manage the Hanford Site engineering drawing repository and provide associated services to DOE and all Hanford contractors. Maintain the Hanford drawing accountability system, assignment of unique drawing identification numbers for new drawings, maintenance and storage services for all original site drawings and drawing aperture cards for site distribution and record capture, and maintenance of custody control and drawing checkout to authorized personnel for revision.	The Contractor shall manage the Hanford Site engineering drawing repository and provide associated services.	None Identified	None Identified
Fabrication Services Provide fabricated parts, components, and equipment of a routine, prototypical, production or emergency nature meeting specified QA/QC standards. Provide welder qualification and weld procedure programs for HAMTC work; procurement, maintenance, handling and disposal of hazardous materials used in support of fabrication services; and facility support to the 272W and 277W buildings housing fabrication services. Does not include the fabrication of incidental construction parts, equipment, and aids on a field level maintenance basis.	The Contractor shall provide fabricated parts, components, and equipment of a routine, prototypical, or production nature.	None Identified	None Identified
Fire Department Provide a full range of emergency services for DOE Assets. These services include incident management, fire suppression, fire systems testing, fire prevention, technical rescue, emergency medical service and patient transport, and hazardous materials and chemical/biological/radiological emergency response. Deal with and terminate emergency situations that could threaten the operations, employees, the general public, or interest of the U. S. Department of Energy-operated Hanford Site. Respond to surrounding fire departments/districts under mutual aid and state mobilization agreements and fire fighting; hazardous materials. Provide site fire marshal overview authority, building tours and inspections, ignitable and reactive waste site inspections, pre-fire planning, hazardous chemical inventory updates, and employee fire prevention education.  EXCLUSION: No liability will be accepted nor will any services be provided to BNL/WTP with the exception of those services covered under either: 1) an authorized RFS accepted by FH, or 2) an FH accepted task order from BNL or a contract release from CH2M Hill Hanford Group.	The Contractor shall provide emergency services including incident management, fire suppression, fire systems testing and maintenance, fire prevention, technical rescue, emergency medical service and patient transport, and hazardous materials and chemical/biological/radiological emergency response.  The Contractor shall respond to surrounding fire departments/districts under mutual aid and state mobilization agreements.  The Contractor shall provide Site fire marshal overview authority.	Summary of Fire and Other Property Damage Experience/Report (Annual or as required)	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GEL
<b>Fire Systems Maintenance</b> Provide corrective and preventive maintenance (includes deactivation/reactivation services) and functional tests on fire life safety protection systems, including all components of these systems, and maintain factory certification for all brands of systems.	The Contractor shall provide corrective and preventive maintenance and functional tests on fire life safety protection systems.	None Identified	None Identified
<b>Fleet Maintenance</b> Provide management, maintenance, and repair of GSA vehicles/equipment and Fleet vehicles/equipment with property numbers beginning with the letters "HO". Provide engineering support, technical procedures, control of suspect/counterfeit fasteners, equipment modification control and facility safety (OSHA), fuel costing and invoicing, fuel delivery to areas not accessible to on-site fueling stations, and commercial equipment rental contracts.	The Contractor shall provide maintenance and repair of GSA and HO coded vehicles/equipment.  The Contractor shall provide fuel delivery services to areas not accessible to on-site fueling stations.	Federal Automotive Statistical Tool (FAST) Report (Annual)  OMB Circular A-11 Exhibit 33 Agency Motor Vehicle Fleet Report (Annual)	None Identified
<b>Forms Management</b> Administer the Hanford Site forms management system and process, and design electronic forms for interactive use as well as conventional hard copy forms. Develop/design/revise electronic and hard copy forms, eliminate obsolete or duplicate forms, maintain site forms historical records, and maintain the system for centralized configuration management of site electronic and conventional hard copy forms.		None Identified	None Identified
<b>Grounds Maintenance</b> Provide maintenance of common grounds and grounds directly associated with Site Occupancy Pool facilities. Includes perimeter fence maintenance, lawn and landscape care, annual inspection of facilities, management and maintenance of gravel pits, parking lot and sidewalk cleanup, washing down facilities, signage, and general area cleanup. Provide surveillance and maintenance to ensure the safety and environmental integrity of the 200, 300 and 600 Landlord Areas. Provide radiological surveillance and monitoring of the road system, 600 Area cleanup sites and within the 200 and 300 Landlord Areas; environmental inspections, monitoring and assistance; annual high and low-water riverbank inspection to ensure environmental integrity; and support to spill responses to assure environmental safety.	The Contractor shall provide grounds maintenance for 712, north Federal Building parking lot and grass strips in parking area, section of lawn across from 703, and west Federal Building parking lot (shared with City of Richland).  The Contractor shall provide grounds maintenance for the 400 Area outside the limited area.  The Contractor shall provide grounds maintenance for M0 404 Radio Maintenance and 2353 parking lot.	None Identified	None Identified
<b>Hanford Employee Welfare Trust Benefits/Human Resources</b> Provide administration for various medical, dental, disability, other insurances, pension, and savings plans to the employees of several site contractors.		None Identified	None Identified
<b>Hanford Environmental Information Databases</b> Provide data management services for three environmental databases: the Hanford Environmental Information System, the Hanford Geographical Information System, and the Waste Information Data System.		None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	G/S/G/L
<p><b>Hanford Local Area Network (HLAN) Operation, Maintenance and Integration</b> Provide for the engineering, operation and maintenance of the Hanford Local Area Network (HLAN) infrastructure. Provide Network Administration, coordinate HLAN intranet and Internet website configuration control and standards, Network Operations Center (NOC), UNIX/NT/WIN2000 SQL/WEB server administration, file server backup and recovery, E-Mail Administration and Support, Internet Support, dial-up and VPN Remote Access Services, Maintenance and Software Management, Technology Support for Hardware and Software, maintain virus protection software, electronic distribution and deployment of software applications running in the HLAN environment, and testing and evaluation of new computer and information technologies. HLAN network services include Network Management and Network Maintenance.</p>		None Identified	None Identified
<p><b>Hanford Patrol</b> Provide security services to the Hanford Site including those of PNNL, but excluding the WTP construction site. Once construction of the WTP is complete, Hanford Patrol will provide protective force service for the WTP, and respond to alarms and other emergencies/incidents 24 hours a day, seven days a week. Provide qualified Security Police Officers II and III for protection of Site targets, government assets, and access control at Site Barricades. Provide the certified explosive detection K-9 and Search Teams. Mutual aid of K-9 or law enforcement backup support units may be made available on a non-mission interference basis to local, regional, state, and federal police agencies and to school systems in response to threats of violence. Provide 911 dispatch and emergency communications, and operate Washington State "ASSESS" law enforcement computer systems, and dispatch of the Benton County Sheriffs Office on the Hanford Site. Provide the mandated minimum number of responders as stipulated in the Site Safeguards and Security Plan (SSSP) to maintain protection for Site facilities. Provide alarm and duress monitoring for Hanford Site alarmed facilities as required. Provide in-region tracking for radioactive shipments and single point of contact for all outbound Hanford-related radioactive/hazardous material shipments. Provide crash phone, siren, and traffic and crowd control during emergencies. Provide access control, conduct badge checks, issue temporary badges, and search for prohibited articles. These provided services must interface directly with DOE-RL, and in the event of an emergency involving the Site Safeguards and Security forces, DOE-RL may assume command and control of the forces and the event, if the Emergency Operations Center is activated.</p>	<p>The Contractor shall provide security services to the Hanford Site.</p> <p>The Contractor shall provide qualified staff for protection of site targets, government assets and access control.</p> <p>The Contractor shall provide the certified explosive detection.</p> <p>The Contractor shall provide 911 dispatch and emergency communications.</p> <p>The Contractor shall implement the Site Safeguards and Security Plan (SSSP).</p> <p>The Contractor shall provide in-region tracking for radioactive shipments.</p> <p>The Contractor shall provide crash phone, siren, and traffic and crowd control.</p> <p>The Contractor shall provide access control.</p>	None Identified	None Identified
<p><b>Industrial Hygiene Laboratory</b> Calibrate and repair various monitoring equipment used by safety and industrial hygiene for evaluating worker protection.</p>		None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Provide evaluations of equipment and technical assistance to support projects with specific sampling process needs.			
<b>Information Resource Management (IRM)</b> Manage, operate and maintain site applications and services that support Hanford, including the following: <ul style="list-style-type: none"> <li>- Hanford PeopleCore database--the central, integrated source of key Hanford site personnel and facility data for nearly 100 site applications. PeopleCore support to CHG will not be provided after 30 June 2003.</li> <li>- Hanford Identification Number (HID) system--the central source for the generation of new HID numbers and for the maintenance of all HID numbers assigned</li> <li>- Hanford Information System Inventory (HISI)--the central repository for the registration of applications/systems. HISI support to CHG will not be provided after 30 June 2003.</li> <li>- Software configuration tools--A centralized repository for software and documentation used</li> <li>- Hanford Pop/lon--the site-wide telephone directory utility program, which provides users of the Hanford Local Area Network (HLAN) with the capability to look-up telephone and organizational information pertaining to active employees on the Hanford Site.</li> </ul>	The Contractor shall manage, operate and maintain existing Site applications and services	Cybersecurity Program Plan Update (Bi-Annual)  Plan to listen-in to or record telephone/radio conversations on any Government or contractor-procured telephone or radio system (Bi-Annual).	None Identified
<b>Infrastructure Reliability</b> Provide essential replacements, renovations, and upgrades to the water system, sewer system, electrical distribution system, transportation system, telecommunications system, emergency services system (Fire Department, and Emergency Operations Center), and General Purpose Facilities, including contracting and project management functions. Provide capital equipment replacements (e.g., emergency response vehicles, cranes, or other equipment that exceeds thresholds for expense funding, currently \$25,000) for non-project specific, site service and general infrastructure mission activities.		Deferred and Annual Maintenance Cost Data (Annual)	None Identified
<b>Land Management (day-to-day)</b> Support RL for implementing the controls described in Chapter 6 of the "Final Hanford Comprehensive Land Use Plan Environmental Impact Statement".  Support RL for use, outgrants (easements, licenses, permits, leases) and disposal of real property, conveyance documents, boundary determination, title searches, appraisals, NEPA reviews, characterization assessments, site selection and excavation permit reviews and approvals, and facility preparation.	The Contractor shall assist RL with land use determinations.	None Identified	Transfer real property as identified - Due annually until final transfer or as needed
<b>Locksmith Services</b> Provides locksmith support for the installation, replacement and maintenance of locks, keys and access control systems for the		None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	CFR/CFR
Protection of SNM, nuclear materials, classified matter and government property.			
<b>Mail</b> Provide site-wide delivery and pickup of interplant and U.S. Postal mail; maintenance of the mail stop identification number (MSIN); obtain and maintain receipts on accountable mail (registered, certified, priority and insured); and address services for mail distribution.		None Identified	None Identified
<b>Mapping Services</b> Provide general and business-specific Hanford Site maps. Specific data systems supported include Hanford Geographical Information System/WIDS, E911, Electrical Utilities, Environmental Permitting, Telecommunications mapping, and others. Provide and maintain geographically defined data sets of the Hanford Site. Provide copies of standard maps and the Hanford Site Data Sets on request. Provide custom maps.		None Identified	None Identified
<b>Micrographics</b> Manage the Hanford micrographics operations and provide services for the conversion of records to microfilm, including both 35mm and 16mm formats. Convert Site engineering drawings to 35mm silver and diazo microfilm aperture cards for record and daily-use purposes. Micrographics support to CHG will not be provided after 30 June 2003.		None Identified	None Identified
<b>Occupancy Pool - Government Owned/Leased Facilities</b> Provide management, maintenance, and custodial services for government-owned (office space, mobile structures, and other general purpose facilities), commercial and GSA leases for general-purpose facilities (office, training spaces, etc.) that can be used to house programs/contractors. Occupancy Pool includes facilities as approved by DOE RL and ORP.		None Identified	None Identified
<b>Paging Services</b> Provide pager services including engineering, maintenance, operation radio spectrum licensing, and other related services for the on site, Government-owned Hanford Site pager infrastructure. Provide administration of the regional paging contract and the national paging contract.	The Contractor shall provide pager services.	None Identified	None Identified
<b>Post-Closure Transition</b> Support RL in preparing for post-closure transition.	The Contractor shall provide up to one half FTE labor support and \$150K in subcontract support for Post-Closure Transition.	None Identified	None Identified
<b>Property System Management</b> Provide for the maintenance and operations of the Site Property Management System (SAMS), and the integrated reporting of the DOE-owned property located on the Hanford Site.	The Contractor shall provide for the maintenance and operations of the Site property management system.  The Contractor shall collect the volumetric printing/duplicating information and load it into the electronic media for the annual JCP Report and the annual report on copying activities to OSTI.	Activities Generating Precious Metals/Report (Annual)  Physical Inventory Report (Annual)  Property Data Statistics - Mandatory Annual Physical Inventory of Sensitive Property (Annual)	None Identified
<b>Radio Services</b> Provide engineering, maintenance and operations for radio communication services including two-way, fire dispatch, safety and	The Contractor shall provide radio communications services.	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GRS/CH
emergency preparedness, and security systems and infrastructure services including spectrum licensing and management and National Telecommunications and Information Administration (NTIA) registration of radio frequencies.			
<b>Records Management</b> Manage the vital records program, provide records restoration, and records/document management systems. Records Management support to CHG will not be provided after 30 June 2003.	The Contractor shall provide records management services for government records.	None Identified	None Identified
<b>Records Storage</b> Provide long-term records storage services for government records generated by DOE and Hanford contractors. Includes receipt of boxed records for inactive retention, processing for storage, search and retrieval for use, and eventual disposition. Administer the local records holding area storage facility and associated systems, and maintenance of the interface with the Federal Records Center in Seattle for effective inventory management.	The Contractor shall provide long-term records storage services for government records.	None Identified	None Identified
<b>Refrigerated Equipment Services (RES)</b> Provide site-wide corrective and preventive maintenance of government owned refrigeration / heating equipment (including Refrigerant Gas removal from deactivated equipment). Maintain documentation as required by the EPA. Operate the site repository for refrigerant gases.	The Contractor shall provide corrective and preventive maintenance of government owned refrigeration / heating equipment.  The Contractor shall maintain and operate the site refrigerant gases repository.	None Identified	None Identified
<b>Respiratory Protection</b> Provide factory certified maintenance, inspection, and testing for all self contained breathing apparatus, breathing air carts, and powered air-purifying respirators.		None Identified	None Identified
<b>Road Services</b> Provide accident and spill cleanup, grading and sweeping of roads and shoulders, removal of road debris, minor road maintenance including crack sealing, patching, minor paving of potholes, road striping, and snow removal from primary and secondary roads. Establish snow removal priorities each season.	The Contractor shall maintain site roads with the exceptions of Route 2S from the Wye barricade to Route 11A and Route 11A from Route 2S to gate 810 until September 30, 2007, when the roads will transfer from ORP back to F.L.	None Identified	None Identified
<b>Safeguards &amp; Security</b> Provide for the protection of SAS interests involving the use, identification, processing, possession, receipt, shipment, storage and disposition of special nuclear material (SNM), classified and sensitive matter, and protection of personnel and government property. Integrate security operations on the Hanford Site.  Provide Program Planning and Administration: (e.g., Vulnerability Assessments, Safeguards and Security Plans, SAS Strategic Plans, technical analysis/security upgrade cost estimates, and special studies to ensure cost-effective SAS applications); Protection Program Management (Physical Security, Security Systems, Badging); Information Security protect classified and unclassified sensitive information generated, processed, and stored on the Hanford Site from loss, damage, and		Nuclear Material Accountability Transaction Data Report (Monthly) Nuclear Material Balance Report (Monthly) Operations Security (OPSEC) Program Status Report (Annual)  Patrol Contingency Plan (Annual)  Plutonium Vulnerability Quarterly Status Report (Annual)  Protective Force Strength Report (Quarterly)  Quarterly Category of Ending Inventory Report	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<p>Unauthorized disclosure, and integrate Operations Security, Classified Information Systems Security, Classified Matter Protection and Control, the Classification Office, Unclassified Cyber Security, Telecommunications Security, Technical Surveillance countermeasures, and the Foreign National Visits and Assignments Program), and Safeguards/Material Control and Accountability, Security Awareness, and Personnel Security.</p> <p>Provide technical expertise and emergency response personnel and equipment for the mitigation and joint Incident Command and control with site security forces for the control of any weapons of mass destruction (WMD) and chemical/biological weapons (CBW) incidents affecting the interest of the US Government.</p>		<p>Quarterly Classification Officers Report Site Safeguards and Security Plan - (as required)</p> <p>Status Report on DOE Findings (Quarterly)</p>	
<p><b>Sanitary Waste Disposal</b> Provide for the collection and disposal of sanitary solid waste from the Hanford Site and for the disposal of non-radioactive non-dangerous drummed waste, medical waste, and asbestos waste. Monitor and maintain the closed Hanford Solid Waste Landfill including periodic inspections, soil gas monitoring and leachate management and monitoring. Operate the inert and demolition landfill at Pit 9 and administer contracts for disposal of solid waste, asbestos, medical waste, and drummed non-hazardous waste.</p>	<p>The Contractor shall dispose of sanitary solid waste, non-radioactive, non-dangerous drummed waste, medical waste, and asbestos waste.</p>	<p>Solid Waste Landfill Monitoring Report (Annual)</p>	None Identified
<p><b>Solid Waste Storage and Disposal</b> Provide disposal of low-level waste (excludes operation of the Environmental Restoration Disposal Facility); designation and shipment of hazardous waste; manage the off site treatment, storage and disposal facility contracts; identify classified solid waste and properly segregate; provide product determinations; manage orphan wastes; store mixed and transuranic wastes. Segregated classified wastes should be put in an unclassified configuration prior to disposal off site.</p>	<p>The Contractor shall dispose of baseline volumes of LLW and RMW (MLLW), as defined in the SWIFT 2002.1 Report, from DOE and DOD generators as approved by RL.</p> <p>The Contractor shall support waste treatment/storage/disposal requests from generators approved by RL.</p> <p>The Contractor shall manage orphan wastes, and store mixed and transuranic wastes.</p> <p>The Contractor shall designate and ship hazardous waste. Hazardous waste leaving the Hanford Site for disposal must follow RL approved radiological moratorium limits.</p> <p>The Contractor shall maintain the Solid Waste and Liquid Waste Acceptance Criteria. Modifications of the Solid Waste Acceptance Criteria shall be concurred upon by RL.</p> <p>The Contractor shall maintain the Solid Waste Forecast. The Solid Waste Forecast shall be maintained in an internet accessible basis.</p> <p><b>Post Contract Period:</b> Non-regulated LLW, stored in the CWC, that does not meet the Hanford Site Solid Waste Acceptance Criteria for disposal, shall be treated as capability becomes available.</p>	<p>Waste Management Hanford Project Update to Final Safety Analysis Report (SAR) (Including Hazard Analysis Data)</p> <p>M-26-01M: Annual Hanford land disposal restrictions report to cover the period from 1-1 of the previous year through 12-31 of the reporting year. <b>Due:</b> 30 April 2003</p> <p>M-26-01N: Annual Hanford land disposal restrictions report to cover the period from 1-1 of the previous year through 12-31 of the reporting year. <b>Due:</b> 30 April 2004</p> <p>M-26-01O: Annual Hanford land disposal restrictions report to cover the period from 1-1 of the previous year through 12-31 of the reporting year. <b>Due:</b> 30 April 2005</p> <p>M-26-01P: Annual Hanford land disposal restrictions report to cover the period from 1-1 of the previous year through 12-31 of the reporting year. <b>Due:</b> 30 April 2006</p>	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	Q/S/GFI
<b>Telecommunication Service</b> Provide engineering, operation and maintenance of the Hanford Site Telephone Exchange services (voice, data, special circuits, 911 support, FTS and commercial long-distance features, and attendant/operator services) including inside plant and outside plant wiring, transport (backbone) systems, switching equipment, infrastructure, and associated equipment.	The Contractor shall provide engineering, operation and maintenance of the Hanford Site Telephone Exchange services.	None Identified	None Identified
<b>Tours</b> Conduct road tours of the Hanford Site for large groups of internal and external stakeholders that require buses for transportation.	The Contractor shall provide transportation for large tour groups.	None Identified	None Identified
<b>Traffic Engineering</b> Provide technical direction for traffic control related issues as they apply to the Hanford roads.	The Contractor shall provide technical direction for traffic control as they apply to the Hanford roads.	None Identified	None Identified
<b>Traffic Manager</b> - Serve as the Site Traffic Manager by coordinating on site and off site shipments, including hazardous materials. - Serve as the agent for the Government as designated shipper for the site. - Manage overnight small package delivery. - Manage export/ import/ services with U.S. Customs and freight rate negotiations with carriers. - Relocate household goods for site personnel related to the work performed by the Contractor and subcontractors under this contract. - Manage inbound and outbound freight including, but not limited to, LTL, TL, and Air.	The Contractor shall:  - Serve as the Site Traffic Manager by coordinating on site and off site shipments, including hazardous materials. - Serve as the agent for the Government as designated shipper for the site. - Manage overnight small package delivery. - Manage export/ import/ services with U.S. Customs and freight rate negotiations with carriers. - Relocate household goods for site personnel related to the work performed by the Contractor and subcontractors under this contract. - Manage inbound and outbound freight including, but not limited to, LTL, TL, and Air.	None Identified	None Identified
<b>Transportation and Packaging</b> Provide technical support for the Hanford Site for on site and off site transportation and packaging of hazardous materials and hazardous wastes, including those that are classified as radioactive.	The contractor shall maintain DOE/RL-2001-0036, Hanford Sitewide Transportation Safety Document.  <b>This work scope shall be done in compliance with:</b> - DOE/RL-2001-0036, REV. 0, "Hanford Sitewide Transportation Safety Document."	None Identified	None Identified
<b>Tri-Party Agreement/Site Administrative Record/Public Information Repositories</b> Receive and manage the documents generated as a result of permitting or closure of Hanford treatment, storage, or disposal units (TSD) or Operable Units or expedited response action (ERA) that are required by the Tri-Party Agreement (TPA) and other legal requirements, such as RCRA and CERCLA, to be maintained in the Hanford Site Administrative Record (AR) File and Public Information Repositories (PIR). Support review process for determining documents to be included in the AR, manage files, retrieve records, and make records available to the public, including maintaining the four Public Information Repositories (PIRs) in the Pacific Northwest.	The Contractor shall manage documents that are required by the Tri-Party Agreement (TPA) and other legal requirements.	None Identified	None Identified
<b>Utilities Operations and Maintenance-- Electrical Utilities</b> Provide for the safe and reliable operation of the Hanford Site electrical transmission and distribution (T&D) system in the 100, 200,	The Contractor shall operate the Hanford Site electrical transmission and distribution (T&D) system.  The Contractor shall collect the necessary	Hanford Site 10-Year Load Forecast (Annual)	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
300, and 600 Areas. Interface with the Bonneville Power Administration (BPA) to ensure that electrical power and transmission related needs are met. Use meter reading and BPA cost allocation to determine customer billing.	electrical load forecast information from all Hanford Site contractors.  The Contractor shall provide Load Shift Reports to BPA and RL as required.  The Contractor shall provide RL with the monthly breakdown (by contractor) of the BPA power and transmission billing.		
<b>Utilities Operations and Maintenance—Sewer Utilities</b> Provide for the safe and reliable operation of the 100, 200, 300 and 600 Area sanitary sewer systems including Subsurface Absorption Systems (SSAS), temporary holding tanks, distribution piping and aagoon treatment plant.	The Contractor shall operate Hanford Site sanitary sewer systems.  The Contractor shall provide RL with the 300 Area sanitary sewer radiological analysis results on a monthly basis.	Inspection Record Reports (Sewer System O&M Activities to DOE) (Annual)  Quarterly Discharge Monitoring Reports (Lagoon Activities/Discharges)  Review/Review of Lagoon Operations & Maintenance Manual UI-0-16.01 (Annual)	None Identified
<b>Utilities Operations and Maintenance—Water Compliance and Sampling</b> Maintain a drinking water program that includes source, production, distribution, monitoring, and cross-connection control programs in accordance with federal drinking water laws and the Site applicable Washington Administrative Code (WAC).	The Contractor shall maintain a drinking water program for the Hanford Site.	Lead and Copper Monitoring Report (Tri-Yearly)  Quarterly Cross-Connection Control Master Deficiency List/Report  200E, 200W, 300, 400 Area Drinking Water Report (Monthly)	None Identified
<b>Utilities Operations and Maintenance—Water Utilities</b> Provide for the safe and reliable operation and maintenance of the 100, 200, 300, and 500 Area water treatment and distribution systems and facilities on the Hanford site.	The Contractor shall operate and maintain water treatment and distribution systems and facilities on the Hanford site.	Water Facility Inventory Report Forms (Annual)	None Identified

## C.5 Other Work Scope

This Contract contains other work scope not solely associated with site cleanup, waste and SNF management operations, or site services. Work scope described in this section is necessary for the successful accomplishment of the Contract. It includes ESH&Q support and Emergency Management and Preparedness for Contract activities and assigned facilities. It includes Contractor Project Management activities and products. It also includes support provided directly to RL and request-for-service activities.

### C.5.1 Environment, Safety, Health and Quality Assurance (ESH&Q)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
<b>Environmental Protection</b> Provide an environmental compliance program that includes preparation/coordination of regulatory required site-wide environmental reports, permits, permit applications; addressing/tracking of regulator issues; performance of near-field monitoring; providing technical support for TPA compliance and regulatory analysis; and managing of chemicals. Ensure compliance with applicable environmental laws and regulations.	The Contractor shall manage assigned facilities and operable units to assure compliance with environmental permits, requirements, and agreements.  The Contractor shall provide legally and regulatory required environmental monitoring of near facility, air, and liquid effluents.  The Contractor shall collect, compile, and integrate environmental monitoring data from operations and activities under its control and from other Hanford Site Contractors. This data will be used in preparation of mandatory state and federal environmental reports for the Hanford Site.  The Contractor shall provide management of chemicals in accordance with DOE orders and directives.  The Contractor shall provide technical support to manage the Tri-Party Agreement.  The Contractor shall evaluate the impacts of new environmental laws and regulations and provide an assessment of the cost of implementation.  The Contractor shall compare the monitoring data with regulatory and/or permit standards and provide reports to the other contractors for their use in assessing compliance with the standards. The data shall also be compiled, collated, and/or consolidated, as necessary, into the mandatory State and Federal environmental reports for the Hanford Site.  The Contractor shall provide appropriate environmental data for its facilities and operable units to support Hanford Site assessments and preparation for the Hanford Site Environmental Report.  The Contractor shall prepare, maintain and comply with Hanford site-wide environmental requirements and permits, as directed by RL. This includes site-wide regulatory analysis, reports and assessments associated with the Hanford environmental program.	Annual BCAA Asbestos Notification of Intent  Annual Environmental Release Report  Annual Noncompliance Report  Annual Nonradioactive Airborne Emissions Reports  Annual Permitting Status Report  Annual Radionuclide Air Emissions Report  AOP Annual Compliance Certification Report  Class V Underground Injection Control Well Registration (As required)  Closure/Post-Closure Cost Estimate (Annual)  Environmental Monitoring Plan (EMP) to PINL (every three years)  EPCRA Section 312 Tier Two Emergency and Hazardous Chemical Inventory Report (Annual)  EPCRA Section 313 TRI Report (Annual)  Hanford AOP Semi-Annual Report  Hanford Site Annual Dangerous Waste Reports  Hanford Site Annual PCB Document Log  Hanford Site Annual PCB Report  M-20-00A: Part B Permit	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/CFI
	The Contractor shall provide technical support to manage the Hanford site-wide permits and assist in resolving regulatory agency enforcement actions.	<p>applications or closure/post closure plans for all RCRA TSD Units except 216-A-10, 216-A-36B, 215-A-37-1, 207-A South Retention Basin, 216-S-10 Pond, 216-S-10 Ditch, 241-CX-70, 241-CX-71, AND 241-CX-72. Due: 28 February 2004</p> <p>National Pollutant Discharge Elimination System Discharge Monitoring Report (Monthly)</p> <p>Quarterly RCRA Permit Class 1 Modification Notification RCRA Pipe Mapping and Marking Report</p> <p>RCRA Section 3016 Report (Biennial)</p> <p>ST-4508 Log of Significant Discharges (Annual)</p> <p>PTRAEU &amp; HVO Annual Report</p> <p>Quarterly NESHAP Status Report</p> <p>Underground Storage Tank Master License Renewal Application (Annual)</p>	
<b>Integrated Safety Management System</b> Maintain a single project wide ISM system.		Annual Performance Objectives, Measures, and Commitments Report	Approve updates within 30 days of submittal
<b>Nuclear Safety</b> Maintain a Nuclear Safety Program that includes criticality safety and nuclear facility safety.	Readiness determinations for restart of nuclear activities and for start-up of new nuclear activities shall be performed to demonstrate readiness to safely start the activity.	<p>Project Hanford - FY200X Criticality Safety Self Assessment Report (Annual)</p> <p>Quarterly Update of the Startup Notification Report for Fluor Hanford Managed Facilities</p> <p>Unreviewed Safety Question Summary Report for each FH managed category 1,2, and 3 nuclear facilities (Annual)</p>	Approve updates within 30 days of submittal
<b>Occupational Safety &amp; Health</b> Maintain an Occupational Safety and Health Program.	<p>The Contractor shall meet all occupational safety and health requirements (including but not limited to industrial safety, fire protection, construction safety, firearms safety, explosive safety, industrial hygiene, pressure safety and motor vehicle safety) for all site-related operations and conditions.</p> <p>The Contractor shall provide Material Safety Data Sheet management services for the PHMC, CHG, RL, and HEHF.</p> <p>The Contractor shall provide technical interface with the Site Occupational Medical Contractor for occupational health services.</p>	<p>Computerized Accident/Incident Reporting System (CAIRS) (Form DOE F 5484.3) for each new or revised Recordable injury, illness, vehicle accident, and property damage incident (Quarterly)</p> <p>DOE F 5484.4 Form, Tabulation of Work-Hours, Vehicle Usage, and Property Valuations (Quarterly)</p> <p>Part B of DOE F 5484.4 Form, Tabulation of Work Hours, Vehicle Usage and Property Valuations (Annual)</p>	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GRI
<b>Quality Assurance</b> Maintain a Quality Assurance Program.		Update to the approved Quality Assurance Program Description (QAPD) (Annual)	Approve updates within 30 days of submittal
<b>Radiation Protection</b> Maintain an environmental and occupational radiation protection program.		Radiation Protection Program Plan (Tri-Annual review and update)	Approve volumetric and real property release documentation within 60 days of receipt or in accordance with approved Project Plan milestones.

### C.5.2 Emergency Management/Preparedness

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GRI
<b>Emergency Management/Preparedness</b> Provide an emergency response capability for assigned facilities that implements the Hanford Emergency Management Plan, DOE/RL-94-02.		None Identified	None Identified

### C.5.3 Management Products and Controls

This section describes the management products and controls required during the Contract period.

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GRI
<b>Accounting System</b> Maintain a contractor accounting system.	<p>The Contractor's accounting system must have the electronic capability to generate and transmit by acceptable mode, the periodic detailed accounting information, at a minimum monthly and at year-end, to the DOE's Primary Accounting System for reporting financial activity under this contract in accordance with DOE requirements and the DOE Accounting Handbook except for Chapters 3, 5, 8, 14, 16, 18, 19, and 20.</p> <p>NOTE: RL has modified, with HQ knowledge and approval, the instructions in Accounting Handbook Chapter 21, "Financial Closeout". These guidelines are followed, except that the final audit is not completed by DOE, rather it is completed by the Defense Contract Audit Agency. Consistent with FAR and DEAR requirements, the final audit and contractor certifications are received and the Contracting Officer prepares a final contract modification and closing documentation. RL Finance retains records according to RL PRO guidelines for that contract.</p> <p>The Contractor shall maintain and administer a financial management system as described in the Contractor Management Plan that (1) is suitable to provide proper accounting in accordance with Generally Accepted Accounting Principles, and Cost Accounting Standards, except as modified by DOE requirements; (2) supports financial planning; and budget formulation, validation, execution, and the recasting or changing of</p>	<p>Added Factor Report (Annual)</p> <p>Annual Estimated Property Valuation</p> <p>Conference Management Report (Quarterly)</p> <p>Contract Funds Status Report (Monthly)</p> <p>U.S. Department of Labor Form 5500 -- Annual Return of Fiduciary of Employer Benefit Trust (Annual)</p> <p>Depreciation Charges (Monthly)</p> <p>Department Inventory Management System (DIMS) Report (Quarterly)</p> <p>Disclosure Statement (As required)</p> <p>Erroneous Payment Report (Quarterly)</p> <p>August Update to FY 200X Contractor Post Retirement Benefits Other Than Pension (PRB) for DOE Financial Statement Disclosures (FAS 106) (Annual)</p>	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	<p>DOE funding or task codes such as Budget and Reporting Numbers (B&amp;R), activity data sheet numbers (ADS), and local projects/tasks; (3) maintains proper funding authorization including submittal of a Funding Change Proposal when Approved Funding Program changes between PBS's or changes between Operating, Capital Equipment, or General Plant Projects within a PBS are required; (4) integrates and reports the financial information for subcontractors; and (5) provides all other necessary financial reports, which shall include accumulating and reporting indirect and support costs by function. The Contractor will be requested, periodically, to provide certain functional cost information not normally provided to DOE on a routine basis, but should be otherwise available through query of the Contractor's accounting system.</p> <p>The Contractor will assume existing responsibilities for accounting control of special nuclear materials. The Contractor will continue to operate the classified Departmental Inventory Management System (DIMS), which reports the financial aspects of special nuclear material inventory changes and status.</p> <p>The Contractor shall report cost information for all contract funds, including work for others. (FY03 to FY06)</p> <p>The financial management systems of Major Subcontractors shall have the same level of detail required of the Contractor and be consistent with the requirements of this clause.</p> <p>The use of overtime is authorized under this contract. If the overtime premium cost does not exceed 12% of total payroll.</p>	<p>August Update to Fiscal Year 200X Contractor Pension Data for DOE Financial Statement Disclosures (FAS 37) (Annual)</p> <p>Financial Information System (FIS) Management &amp; Reporting System (MARS) (Month-End Deadlines)</p> <p>Fiscal Year 200X Contractor Post Retirement Benefits Other Than Pension (PRB) for DOE Financial Statement Disclosures (FAS 106) (Annual)</p> <p>Fiscal Year 200X Contractor Pension Data for DOE Financial Statement Disclosures (FAS 37) (Annual)</p> <p>Fiscal Year 200X Workman's Compensation with Rate of 2% (As required)</p> <p>Fiscal Year 200X Year-End Requirements and FY200X Planning Requirements (Annual)</p> <p>Fiscal Year 200X Travel Target Report (Quarterly) [include FY200X Travel Target for following year in 4<sup>th</sup> Quarter Report]</p> <p>Fluor Hanford, Inc., Cost Submittal FHXXXX (Monthly)</p> <p>Functional Support Cost Reporting (FSCR) for FY200X (Annual)</p> <p>Reconciliation of Transfers Between FH and Other Hanford Contractors (Transfers To and Transfers From) (Quarterly)</p> <p>Reconciliation of Activities Charged to Suspense Debits and Budget and Reporting (B&amp;R) Number (Monthly)</p>	
<p><b>Baseline</b> Maintain an integrated, traceable scope, schedule, and cost life-cycle baseline as described in the Management Plan.</p>	<p>The Contractor shall implement an interim reporting baseline for FY 2003 and revise the life-cycle baseline.</p> <p>The Contractor shall provide a high-level crosswalk from the FY 2003 baseline to the revised baseline at the PBS level.</p> <p>The Contractor shall not be required to update the life-cycle baseline more than once per year.</p> <p>The life-cycle baseline shall contain scope, schedule, and cost information to support</p>	<p>GFS/GFI Report (Quarterly)</p> <p>Interim Reporting Baseline Due: 30 January 2003</p> <p>Letter to RL with notification of baseline availability on HANDI and a crosswalk from BCR FH-2003-001 to new baseline Due: 30 June 2003</p> <p>Revised Life-Cycle Baseline Due: 30 June 2003</p>	<p>Formal direction to update the life cycle baseline 60 days prior to need</p>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	<p>development and maintenance of an integrated DOE/RL baseline and support the Federal annual budget, planning, and execution processes.</p> <p>The Contractor shall maintain vertical and horizontal traceability between technical, schedule and cost at all levels of the WBS structure.</p> <p>The life-cycle baseline shall contain the following elements:</p> <ol style="list-style-type: none"> <li>1. General <ol style="list-style-type: none"> <li>a. An electronic baseline available in HANDB</li> </ol> </li> <li>2. Technical Baseline <ol style="list-style-type: none"> <li>a. WBS Hierarchy</li> <li>b. FBS Mission Objectives</li> <li>c. WBS Dictionaries</li> <li>d. Waste and Material Forecasts</li> <li>e. Functions and Requirements by PBS</li> <li>f. Gold Metrics by PBS</li> <li>g. FAM Tables for Waste Sites and Facilities</li> </ol> </li> <li>3. Schedule Baseline <ol style="list-style-type: none"> <li>a. Critical Path Schedules</li> <li>b. Milestone Listing</li> </ol> </li> <li>4. Cost Baseline <ol style="list-style-type: none"> <li>a. Life Cycle Cost Profiles by PBS</li> </ol> </li> </ol> <p>Contract period (FY03 to FY06) planning shall be based on the scope requirements, interactions, endpoints, performance objectives, and funding provided in this Contract.</p> <p>Contract period (FY03 to FY06) planning shall be maintained through rigorous change control, life cycle impacts shall be reflected through the annual update.</p> <p>Integral to Lifecycle planning, the Contractor shall identify, evaluate, and manage programmatic risks associated with the Contract workscope and establish priorities based on life-cycle considerations.</p> <p>The Contractor shall maintain a single baseline for all EM-funded work covered by this contract. The baseline products will be consistent across all EM-funded PBS's and will be developed in accordance with Contractor-established guidance, processes, and procedures.</p> <p>The Contractor shall maintain the Hanford Site Technical baseline data (now in the Hanford Site Technical Database) for all Hanford site cleanup work.</p> <p>The Contractor shall incorporate all GFS/I (that is critical) path to achieving performance incentives into baseline schedules.</p> <p>The Contractor shall provide support to RL for the occasional budgetary ("what if") exercises. \$100K will be allocated for this support each fiscal year. Budgetary exercises include:</p> <ul style="list-style-type: none"> <li>- PBS changes and scope transfers</li> <li>- Funding level changes</li> <li>- Mission objective changes</li> </ul>		

SCOPE	REQUIREMENT(S)	DELIVERABLES	IGS/GFI
	<p>- Schedule changes</p> <p>Budgetary exercises that require support beyond the \$100K allocation will be managed and funded through an RL Request for Service. The Contractor shall also provide up to 1800 hours per year from its central budget integration function to support other RL special initiatives or exercises.</p> <p>The Contractor shall support DOE Unicall request at a level consistent with the FY 2004 budget submittal.</p>		
<p><b>Change Control</b> Maintain disciplined change control according to the methods described in the Management Plan, HNF-MP-001.</p>	<p>The Contractor shall maintain the Contract Baseline through the Contract period (FY03 to FY06)</p> <p>Baseline changes that result in one or more of the following must be submitted to the Joint RL/Contractor Change Board for disposition:</p> <ol style="list-style-type: none"> <li>1) changes to the contract statement of work;</li> <li>2) changes to performance incentive objectives, definitions, or completion criteria;</li> <li>3) changes to end state definitions;</li> <li>4) changes to contract funding levels;</li> <li>5) changes to annual gold metrics;</li> <li>6) changes which result in impacts to other site contractors;</li> <li>7) changes that increase the execution year PBS value by 15% and \$5 million; and</li> <li>8) changes to any PBS total life-cycle cost of more than 2%.</li> </ol>	Baseline Change Requests	<p>Joint RL/Contractor Change Control Board</p> <p>Formal direction for any change to contract statement of work; performance incentive objectives, definitions, or completion criteria; end state definitions; contract funding levels; or gold chart metrics.</p>
<p><b>Contract Reporting</b> Report performance for the technical work scope, schedule, and cost profile defined in the Contract Baseline. Provide contract reports to RL, as listed in deliverables for Sections C.2 through C.5.</p>	<p>Each month, the Contractor shall prepare and transmit to DOE the Project Hanford Management Contract Performance Report at the P-3S level or higher. This report shall include the FH information to support the DOE Environmental Management Performance Report.</p> <p>The Contractor shall conduct quarterly contract status meetings to include the Gold Metrics, issues, and overall cost and schedule performance at the PBS level or higher.</p> <p>The Contractor shall provide their internal dashboard indicators to RL for information on a monthly basis.</p> <p>The Contractor shall provide RL input for IPABS-IS.</p> <p>The Contractor shall submit to DOE the accident reports provided for by RCW Title 51, Section 51.28.010 (as required)</p> <p>Conduct a review, at least yearly, of all supervisors adherence to and performance under the Contractor's equal employment policy and affirmative action obligations.</p>	<p>Annual Recruitment and Retention Report</p> <p>Annual Report on Contractor Workforce Restructuring</p> <p>Procurement Balanced ScoreCard (Annual)</p> <p>Compensation Increase Plan (Annual)</p> <p>Diversity Plan Update (Annual update)</p> <p>EEO-1 Report - Required by and sent to the U.S. Department of Labor (Annual)</p> <p>FY200X Annual Audit Activities Report</p> <p>FY 200X Internal Audit Annual Plan Due: June 200X</p> <p>Internal Audit Reports for Audits Defined in the Internal Audit Annual Plan</p> <p>Internal Audit Quarterly Status Report</p> <p>Make-or-Buy Plan (Annual update)</p> <p>Minority and Female Personnel Inventory and</p>	<p>Formal direction for any change to IPABS-IS or PARS format or content 60 days prior to need</p> <p>Formal direction and guidance for reporting of EM Corporate Performance Measures by 31 January 2003.</p>

SCOPE	REQUIREMENT(S)	DELIVERABLES	GES/GFI
		<p>Evaluation for Promotional Opportunities Report (Annual)</p> <p>Recruitment and Retention Pool Amount Update (Annual)</p> <p>Report of Compensation (Form DOE-F-3230.6a) (Annual)</p> <p>RL/Contractor Performance Management Meeting (PMM) (Quarterly)</p> <p>Small Business Subcontracting Plan (Annual)</p> <p>Project Hanford Management Contract Performance Report (Monthly)</p> <p>Standard Form 294, Subcontracting Report for Individual Contracts (Semi-Annual)</p> <p>Fiscal Year (FY)200X Contractor Assurance on the Adequacy of the Internal Management Control Program (Annual)</p> <p>Salary Guidelines (Annual)</p> <p>VETS-100 Report - Required by and sent to the U.S. Department of Labor (Annual)</p>	
<p><b>Contractor Management Plan</b> Maintain a management plan describing the approach for managing and controlling the project.</p>	<p>The management plan shall describe the approach (e.g., summary roles and responsibilities, organizational structure) the contractor will use to accomplish the contract work scope.</p> <p>The management plan shall utilize systems engineering techniques that assure the Contractor's work scope is integrated internally with the other Hanford Prime Contractors, and the EM Complex as applicable.</p> <p>The management plan shall describe the contractor's requirements management system.</p>	<p>Fluor Management Plan (HNF-MP-001) (review and update yearly)</p>	None Identified
<p><b>Interface Management</b> Work with DOE-RL, DOE-ORP and other site contractors to establish and maintain interface documentation that defines the various interfaces and associated agreements.</p>	<p>Interface control documentation shall clearly define the roles and responsibilities of the various parties (DOE and Contractor) with respect to the interface.</p> <p>The Contractor shall comply with established interface agreements and manage changes to interface documents using an approved change control process.</p>	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Contract work scope.			

### C.5.4 Legal Services and Litigation Management

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Legal Services and Litigation Management Provide legal services to Contractor staff and managers; control the risk of litigation in operation of this contract; and administer the Contractor Legal and Ethical Conduct Program.	Legal Services shall be provided to staff and managers to enable them to make informed decisions and to operate within the applicable laws and regulations.  Litigation Services for the Contractor shall be provided in cases of actual or threatened litigation, regulatory matters, or third-party claims in accordance with the Legal Resources Management Plan.  The Contractor shall submit the Legal Resources Management Plan to DOE for review.  The Contractor shall manage litigation actions in accordance with the Legal Resources Management Plan.	Disclosure of Inventions (as needed)  Legal Resources Management Plan (Annual)  Lessons Learned Report (Legal) (Quarterly)  Quarterly RL Law Report  Subject Inventions/Parents Reports (Annual)	Identify deficiencies in the Legal Resources Management Plan within 45 days of submittal.  State objections to staffing and resource plan within 30 days of submittal.

### C.5.5 Science and Technology Planning and Integration Management

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Science and Technology Plan and integrate the application of science and technology (S&T) directly into projects and services to reduce schedule, cost and risk.	The Contractor shall track demonstrations and deployments of new or innovative technologies.  The Contractor shall communicate and cooperate with DOE National Office of Science and Technology Program (e.g., RL, HIQ, Hanford Site Contractors, National Laboratories) and build partnership with the science and technology community.	None Identified	None Identified

### C.5.6 Training

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
Training Program Develop, implement and manage a training program that maintains a qualified workforce in sufficient numbers and skill levels to meet the Hanford Site requirements.		None Identified	None Identified

### C.5.7 HAMMER (Hazardous Materials Management and Emergency Response)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
HAMMER Manage, operate and maintain the Volpentest HAMMER Training and Education Center to provide training and education programs for hazardous material, waste management, and emergency response to Hanford workers as a first priority but also for workers nationwide.	The Contractor shall manage, operate and maintain the Law Enforcement and Security Training Center (LESTC) (as an integral part of HAMMER) in such a manner that the Hanford Site's protective force, Hanford Patrol, has first priority in the use of the facilities/ranges to meet mandated training	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
Continue partnerships with HAMMER stakeholders.	The Contractor shall coordinate and schedule off site law enforcement and private security entities to utilize excess capacity of the LESTC		

### C.5.8 Architect Engineer/Construction Management

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
Architect Engineering and Construction Services Provide Architect Engineering and Construction Management services necessary to accomplish the contract scope of work.		None Identified	None Identified

### C.5.9 Direct Support to DOE/RL (Department of Energy, Richland Office)

SCOPE	REQUIREMENT(S)	DELIVERABLES	GIS/GFI
<b>Communications and Media Support</b> Provide a wide range of communications support to include, but not be limited to, media relations, printed materials, electronic products (including audio, video and CD productions), the Hanford website, Tribal Government participation, public participation and outreach, tours, employee communications, and emergency preparedness planning and execution.	<p>Press releases and media briefings shall be coordinated with RL and be factual, proactive, and incorporate the Hanford key messages and cleanup outcomes.</p> <p>Publications and websites shall be developed in consultation with RL and shall include the Hanford brand.</p> <p>All communications activities shall comply with the DOE Openness Policy, DOE American Indian and Alaska Native Tribal Government Policy, and the Hanford Site Tri-Party Agreement Public Involvement Community Relations Plan.</p> <p>The Contractor shall ensure that interactions with Tribal Nations are consistent with the principles of the DOE American Indian and Alaska Native Tribal Government Policy and are open up-front, and coordinated with the RL Indian Nations Program manager.</p> <p>The Contractor shall coordinate communications with the Communications Manager on interactions with Congressional, state, local government, and elected officials regarding its contract scope.</p> <p>The Contractor shall provide a timely, accurate, thorough and detailed response to information requested by DOE to comply with Freedom of Information Act and Privacy Act requirements.</p> <p>The Contractor shall provide support for emergency communications activities, including ensuring well-trained staff is available for all pertinent positions in the JIC or EOC for an extended emergency.</p> <p>The Contractor shall support tours of the site, including transportation, food/beverages, tour guides, etc. as requested by DOE.</p> <p>The Contractor shall assist RL in</p>	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GES/GFI
	<p>preparations for the Congressional Cleanup Caucus.</p> <p>The Contractor shall provide strategic communication products, as requested, up to one half FTE annually.</p> <p>The Contractor shall provide a weekly status on communications, community programs and public involvement activities, either verbally or via email.</p>		
<p><b>Direct RL Support</b> The contractor shall provide support to RL on specific activities.</p>	<p>Litigation Services support to RL shall be provided in cases of actual or threatened litigation, regulatory matters, or third-party claims in accordance with the Department of Energy Office of General Counsel, Legal Services, and Litigation Management Policies and Procedures, as requested by the Contracting Officer.</p> <p>Assist RL in preparing Regulatory documents to meet state and federal regulations.</p>	None Identified	RL OCC/RL CO approve contractor defense of appeals per the Litigation Management Plan requirements.
<p><b>Emergency Preparedness</b> Provide support to RL on specific activities. Provide operational, technical and administrative emergency management services. Coordinate with DOE EP and DOE Office of Communications (includes ORP) staff in supporting the Hanford Emergency Operations Center (EOC); maintain and operate the Joint Information Center (JIC) and Occurrence Notification Center (ONC); and manage the Transportation and Radiological Emergency Preparedness Programs. In support of the DOE EP Program, integrate Hanford's Site-wide EP Program, including maintenance of the Hanford Emergency Management Plan and implementing procedures, managing the Hanford Site Emergency Exercise Program, maintaining the Site Emergency response organization and facilities, maintaining the Hanford Site Emergency Alerting System, training site emergency response members, assisting RL in program management, assisting in the off site interface program, and provide support in managing the emergency public information program.</p>	<p>The Contractor shall assist DOE with EP program management.</p> <p>The Contractor shall assist DOE with integration of Hanford's Site-wide EP Program.</p> <p>The Contractor shall maintain Hanford's Emergency Management Plan and implementing procedures.</p> <p>The Contractor shall assist DOE in managing Hanford's Site Emergency Exercise Program.</p> <p>The Contractor shall maintain the Hanford Emergency Operations Center, Joint Information Center, and Occurrence Notification Center.</p> <p>The Contractor shall maintain the Hanford Site Emergency Alerting System.</p> <p>The Contractor shall train the Site emergency response members.</p> <p>The Contractor shall assist DOE in managing the off site interface program.</p> <p>The Contractor shall assist DOE in managing emergency public information.</p> <p>The Contractor shall assist DOE in managing the Transportation Emergency Preparedness Program.</p> <p>The Contractor shall provide required information for the DOE Emergency Readiness Assurance Plan/Report (ERAP)</p> <p>The Contractor shall support DOE preparation of the Annual Field Emergency Preparedness Exercise Evaluation Reports</p> <p>The Contractor shall support DOE preparation of the Quarterly Limited Emergency Preparedness Exercise Evaluation Reports</p>	None Identified	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	CFR/CFR
	The Contractor shall provide Quarterly FH Emergency Management Metrics Data		
<b>Energy Management</b> Manage the Contractor's facilities and activities in an energy efficient manner and in accordance with the Contractor's Energy Management Plan, and support RL in gathering Hanford Site energy resource cost and consumption data.	<p>The Contractor shall complete an annual Energy Management Report (consistent with guidance from the DOE Federal Energy Management Program) and submit the Report to RL.</p> <p>The Contractor shall collect the required energy resource (e.g. electrical, natural gas, fuel oil, etc.) cost and consumption data and input the data no later than 40 days after the end of each fiscal year quarter into the DOE Federal Energy Management Program (FEMP) Energy Management System (EMS) database (i.e. Quarterly Energy Conservation Performance Report); notify RL Energy Manager upon completion of each quarter data entry. The data shall also be included in the Annual Energy Management Report.</p> <p>The Contractor shall collect the required water usage data for the FH and include the information in the Annual Energy Management Report.</p>	<p>Energy Conservation Analysis Report for New Building or Building Addition Projects (as required)</p> <p>FH Annual Energy Management Report</p>	None Identified
<b>Geospatial Information Management</b> Support RL in disseminating Hanford geographical data.	<p>The Contractor shall operate and maintain a Hanford geospatial clearinghouse web site.</p> <p>The Contractor shall support the Site Spatial Data Council.</p> <p>The Contractor shall be RL's point-of-contact and provide geospatial information for off site requests.</p>	None Identified	None Identified
<b>Site-Wide RL Support</b> Provide support to RL for site-wide activities -- pollution prevention, traffic management, operation of the Sample Management Office, and emergency preparedness. (Emergency Preparedness is described below.)	<p>Develop and implement the Hanford Site Pollution Prevention Program incorporating waste prevention, recycling, reuse, and affirmative procurement program.</p> <p>Act as the Site Traffic Manager by coordinating on site and off site shipments and serve as the designated shipping agent for DOE.</p> <p>The Contractor shall operate the Sample Management Office for DOE-RL.</p>	<p>Fiscal Year 200X Pollution Prevention Goal Status for the Hanford Site (Annual)</p> <p>Hanford Site Guide for Preparing and Maintaining Generator Group Pollution Program Documentation (Annual)</p> <p>Hanford Site Waste Minimization and Pollution Prevention Awareness Program Plan (Annual)</p> <p>Waste Minimization and Pollution Prevention Progress Report and Yearly Accomplishments (Annual)</p>	Approval of inspection plans to be obtained within 30 days of submittal.
<b>TPA Support</b> Support RL in the management of the Tri-Party Agreement.	<p>Support DOE and Hanford Site Contractor Project staff in Tri-Party Agreement negotiations.</p> <p>Develop strategy, process, and procedures for Tri-Party Agreement change packages. Assist the responsible project in the development of the change packages and discussions with the lead regulatory agency.</p> <p>Support the TPA dispute resolution process. Develop strategy, process and procedures for the Tri-Party Agreement Dispute Resolution Process. Assist RL and the responsible Hanford Site Contractor Project Offices in the development of the Statement of Dispute</p>	<p>M-035-09: Conduct biennial assessments of information and data access needs with EPA and Ecology. DOE will propose implementation schedules (TPA milestones) for enhancements as a result of the biennial assessments. Due: 31 March 2006</p> <p>M-035-09D: Conduct biennial assessments of information and data access needs with EPA and Ecology. DOE will propose</p>	None Identified

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
	to ensure Tri-Party Agreement and other regulatory requirements are not impacted by the proposed resolution contained in the Statement of Dispute.	implementation schedules (TPA milestones) for enhancements as a result of the biennial assessments. Due: 31 March 2004  Resolution of Disputes (As required)  TPA Change Packages (As required)	

### C.5.10 Request For Services Support

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Request For Services Support</b> Manage and administer the Request for Services (RFS) and work for others program.	Develop a Statement of Work with an associated cost estimate, when requested by RL.  Review request for resource availability and impact on on-going work and transmit package to RL for approval.	RL approval request and RFS package	RL Contracting Officer authorizes the RFS workscope and provides funding via contract obligation/ modification.

### C.5.11 Mutual Aid Agreements

The contractor will make certain personnel available on a non-mission interference basis in response to requests for aid and assistance from those entities outside of the Hanford site with which DOE has signed Mutual Aid Agreements (MAAs). Services for aid and assistance include, but are not limited to, fire protection/suppression, emergency medical services, and police assistance. Contract Section J, Appendix C contains the current list of MAAs.

When such request for aid and assistance impact the Contractor's ability to perform work in support of required deliverables or performance incentives, they may be considered a "change" and handled in accordance with the clause entitled, "Changes -- Cost Reimbursement" of the contract.

### C.5.12 Contract Transition

SCOPE	REQUIREMENT(S)	DELIVERABLES	GFS/GFI
<b>Contract Transition</b> The DOE and Contractor recognize that prior to the end of the Contractor's performance period, a transition period will be necessary to allow a transition to a new Contractor. The Contractor agrees to work with the DOE to establish an acceptable transition plan that supports the new Contractor in assuming their Contract responsibilities. The DOE agrees that any requirements placed upon the incumbent Contractor to perform any transition activities should not impact funding or the Contractor's ability to earn fee.		Transition Plan	None Identified

## C.6 Other Contractors

The Contractor may, from time to time, provide services to and receive services from other Prime Contractors by Memoranda of Agreement (MOA). An MOA is used to establish a solid framework for providing work between Prime Contractors, to clarify the responsibilities and processes, and to create consistency among the Parties. The MOA will include standard definitions, work request elements, generalized decision analysis, and a rigorous dispute resolution process. The use of an MOA, and/or the use of any term contained within, does not create a subcontractor or supplier relationship.

Site Services are required or encouraged for use by the Prime Contractors. Those services, equipment or supplies that the Prime Contractor chooses to use or those DOE directs the Prime Contractor to use, will be considered Government-furnished. Government-furnished field equipment will be identified. These Government-furnished property/services shall be utilized, costed, and reimbursed under the terms of this Contract.

DOE has determined that the Government-furnished service provider has an approved Integrated Environment, Safety, and Health Management System that amalgamates the Quality Assurance Program, Environmental Protection Program, Worker Safety and Health Program, Standards and Requirements Program, Price Anderson Amendments Act (PAAA) Compliance Program, etc., for the protection of the workers, the public, and the environment. Since the service is provided as Government-furnished, oversight by the requesting Contractor is limited to final acceptance of work performed, unless otherwise specified in the Statement of Work. With the exception of directed Site Services, vendor qualification may be performed, if required, based on the quality services needs for unique requirements.

A Prime Contractor pre-qualified by the Government to provide a Government-furnished service may be held solely responsible for poor performance or failure to provide the service in a manner that is consistent with the terms and conditions of a statement of work. A Prime Contractor that has received Government-furnished services that fail to meet, or are otherwise inconsistent with the terms and conditions of a clear and concise statement of work, and who has not been negligent and/or otherwise a contributing factor to the failure or poor performance, shall not be held responsible by DOE for the failure and/or poor performance.

The relationship between the Performing Contractor of Government-furnished services and the Government provides the legal basis for assuring that the Performing Contractor has performed consistent with its contract with the Government. The Performing Contractor should therefore be the prime focus on any adverse actions taken by the Government in the event such services prove to be defective or contrary to contract requirements.

The Contractor shall work with the other Prime Contractors in identifying yearly requirements for services and shall also work with each of these Contractors to further the progress in cleaning up the Hanford Site.

### **C.6.1 Battelle Memorial Institute (BMI)**

Battelle Memorial Institute (BMI), under a separate prime contract, operates the Pacific Northwest National Laboratory (PNNL). PNNL is one of five Office of Science multi-program laboratories that conduct research and development activities under prime contracts to DOE. Some of the programs conducted in the Laboratory are part of the Office of Science laboratory system and require no integration with Hanford's Environmental Management (EM) programs; however, many of the research and technology development programs have direct relevance to the Hanford cleanup mission. As applicable, the Contractor is encouraged to utilize the scientific and technical capabilities available from PNNL and shall work directly with PNNL to maximize the benefit to Hanford from the National research and development program.

PNNL monitors the Hanford environment to protect the public safety and the Hanford Site ecological and cultural resources. This includes providing real time localized weather information for routine safety operations and emergency response, performing Hanford Site and off site environmental monitoring, as well as determining radiological exposure to the public and the environment.

Battelle provides the following services:

- Calibration of hand held and small portable radiological instruments,
- Coordination and control of all aviation activities on the Hanford Site. Assists in validation of Site compliance with FAA rules for hazards to aviation,
- Detection and increased employee awareness of potential site-specific intelligence threats directed against Site employees, information, facilities, and technologies, conducts pre and post visit briefings with employees who visit sensitive countries, trains employees who will host or escort foreign national visitors from sensitive countries, and interviews Site employees who report any contact with individuals from sensitive countries or any contact with individuals seeking unauthorized access to classified matter or special nuclear materials,
- Meteorological data and forecasting information,
- Public reading room of DOE literature,
- Services related to the monitoring and assessment of employee exposure to radiation at the Site, and
- Technical Library located at the Richland WSU Campus.

### **C.6.2 Bechtel Hanford Incorporated (BHI)**

Bechtel Hanford Incorporated (BHI), under a separate prime contract, is the Environmental Restoration Contractor at the Hanford Site. BHI plans, manages, executes, and integrates a full range of activities for the cleanup of contaminated soils, and inactive nuclear facilities under DOE's Environmental Restoration Program. These activities include decontamination and decommissioning (D&D) of old production facilities; managing remedial action projects; developing an Environmental Restoration Disposal Facility (ERDF); and providing technology demonstration projects.

### **C.6.3 Bechtel National, Inc. (BNI)**

Bechtel National, Inc. (BNI), under a separate prime contract to DOE as managed by the Office of River Protection, is responsible for designing, constructing, commissioning, and supporting the transition of the Waste Treatment and Immobilization Plant (WTP). The WTP will treat the wastes being managed by CHG.

### **C.6.4 CH2M HILL Hanford Group, Inc. (CH2M HILL)**

CH2M HILL Hanford Group (CH2M HILL), under a separate prime contract to DOE as managed by the Office of River Protection, is responsible for managing the River Protection Project. CH2M HILL is responsible for safely managing and retrieving for disposal the radioactive waste stored in 177 underground tanks and related facilities.

CH2M HILL also provides, as a variable service, testing of ventilation and filters, and ventilation balance to maintain established flows and pressures on systems. Specifics include Ventilation Stack Flow testing, Fume Hood Flow testing, HEPA Vacuum testing/Certification and HEPA Filter Efficiency testing.

### **C.6.5 Hanford Environmental Health Foundation (HEHF)**

The Hanford Environmental Health Foundation (HEHF), under a separate prime contract, manages the Site Occupational Medical Contract to provide occupational health services through health risk management and occupational health services to personnel at Hanford. Through these services, HEHF strives to maximize the health and safety of Hanford personnel while minimizing personal and occupational health risks. HEHF's Health Risk Management program teams with the site in identifying and analyzing the hazards that Hanford personnel face in the work environment and brings an awareness of health and safety issues to Hanford's personnel. In support of DOE and all prime contractors, HEHF's occupational health services provide occupational medicine and nursing, medical surveillance, ergonomics assessment, exercise physiology, case management, psychology and counseling, fitness for duty evaluations, health education, infection control, immediate health care, industrial hygiene, and health, safety, and risk assessments.

HEHF provides the following services to other site contractors:

- Medical monitoring and qualification evaluations, tests and services;
- Assessment of employees based on-job task analysis and subsequent data management;
- Field and facility visits for health related purposes;
- Diagnosis and treatment of injury or disease;
- Medical records and medical data extraction;
- Formal monitoring of the medical status of an employee who is either absent from work or has limitations on their ability to work;
- Wellness and immunizations;
- Medical surveillance;
- Psychological services; and
- Employee physical examinations.

### **C.6.6 Johnson Controls Incorporated (JCI)**

Johnson Controls Incorporated (JCI), under a separate prime contract, is responsible for the Energy Savings Performance Contract, which currently includes steam service to support heating and other operations at the Site and air compressors for twenty 300 Area facilities. JCI can also propose additional energy conservation measures. These may include but are not limited to lighting system upgrades; pumping system upgrades; automation; heating, ventilation, and air conditioning upgrade; and addition of utility monitoring and control systems.

## C.7 Acronyms

300 ACP	300 Area Accelerated Closure Project
ALE	(Fitzner Eberhardt) Arid Lands Ecology (Reserve)
BMI	Battelle Memorial Institute
BHI	Bechtel Hanford, Inc.
BNI	Bechtel National, Inc.
BIO	Basis for Interim Operations
CBW	chemical/biological weapons
CCRC	Centralized Consolidated Recycling Center
CERCLA	Comprehensive Environmental Response, Compensation, and Liability Act of 1980
CFR	Code of Federal Regulations
CH2M HILL	CH2M HILL Hanford Group, Inc.
CSB	Canister Storage Building
CVDF	Cold Vacuum Drying Facility
CVP	Cleanup Verification Package
CWC	Central Waste Complex
D4	Deactivation, Decontamination, Decommissioning, and Demolishing
D&D	Decontamination and Decommissioning
DNFSB	Defense Nuclear Facilities Safety Board
DOD	Department of Defense
DOE	Department of Energy
DSA	Documented Safety Analysis
EE/CA	Engineering Evaluation/Cost Analysis
EM	Environmental Management
ERDF	Environmental Restoration Disposal Facility
ESH&Q	Environment, Safety, Health & Quality Assurance
ETF	Effluent Treatment Facility
FAA	Federal Aviation Administration
FFTF	Fast Flux Test Facility
GSA	General Services Administration
HAMMER	Hazardous Materials Management and Emergency Response Training and Education Center
HAMTC	Hanford Atomic Metal Trades Council
HLAN	Hanford Local Area Network
HLV	High-Level Vault
HLW	High-Level Waste
IAEA	International Atomic Energy Agency

ISC	Interim Storage Cask
ISM	Integrated Safety Management
JCI	Johnson Controls, Inc.
KE	100 K East
KW	100 K West
LERF	Liquid Effluent Retention Facility
LESTC	Law Enforcement and Security Training Center
LLBG	Low-Level Burial Grounds
LLNL	Lawrence Livermore National Laboratory
LLV	Low Level Vault
LWR	Light-Water Reactor
MAA	Material Access Area
MBA	Material Balance Area
MOA	Memorandum of Agreement
MOU	Memorandum of Understanding
MWDT	Mixed Waste Disposal Trenches
NEPA	National Environmental Policy Act of 1969
NF	Nuclear Fuel
NHPA	National Historic Preservation Act of 1966
NM	Nuclear material
NOC	Network Operations Center
NOC	Notice of Construction
